

CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2015 and 2014

MANAGEMENT STATEMENT OF RESPONSIBILITY

The preparation and presentation of the accompanying consolidated financial statements of McCoy Global Inc. (the "Corporation"), which have been prepared in accordance with International Financial Reporting Standards, are the responsibility of management and have been approved by the Board of Directors.

The consolidated financial statements include certain amounts that are based on the best estimates and judgments of management and in their opinion present fairly, in all material respects, the Corporation's financial position, financial performance and cash flows. The Corporation's accounting procedures and related systems of internal controls are designed to provide reasonable assurance that its assets are safeguarded and its financial information is reliable.

The consolidated financial statements have been audited by PricewaterhouseCoopers LLP, the Corporation's external auditors. The external auditors are responsible for examining the consolidated financial statements and expressing their opinion on the fairness of the consolidated financial statements in accordance with International Financial Reporting Standards. The auditors' report outlines the scope of their audit examination and states their opinion.

The Board of Directors, through the Audit Committee, is responsible for overseeing management's responsibility for financial reporting and is ultimately responsible for reviewing and approving the consolidated financial statements. The Audit Committee meets regularly with management and the external auditors to satisfy itself that each group is discharging its responsibilities with respect to internal controls and financial reporting. The Audit Committee reports its findings to the Board of Directors for their consideration when approving the consolidated financial statements for issuance to the shareholders. The external auditors have full and open access to the Audit Committee, with and without the presence of management. The Audit Committee also considers, for review by the Board of Directors and approval by the shareholders, the engagement or reappointment of the external auditors.

Independent Auditor's Report

To the Shareholders of McCoy Global Inc.

We have audited the accompanying consolidated financial statements of McCoy Global Inc. and its subsidiaries, which comprise the consolidated statements of financial position as at December 31, 2015 and 2014 and the consolidated statements of (loss) earnings and comprehensive income, changes in equity and cash flows for the years then ended, and the related notes, which comprise a summary of significant accounting policies and other explanatory information.

Management's responsibility for the consolidated financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

PricewaterhouseCoopers LLP
10099 – 102 Avenue NW, TD Tower, Suite 1501, Edmonton, Alberta, Canada T5J 3N5
T: +1 780 441 6700, F: +1 780 441 6776

Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of McCoy Global Inc. and its subsidiaries as at December 31, 2015 and 2014 and their financial performance and their cash flows for the years then ended in accordance with International Financial Reporting Standards.

¹ EBITDA is an additional GAAP measure presented under IFRS defined as "net (loss) earnings from continuing operations before finance charges, net, income tax (recovery) expense, depreciation and amortization."

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the years ended December 31, 2015 and 2014

(in thousands of Canadian dollars, except share data or unless otherwise specified)

1. NATURE OF OPERATIONS

McCoy Global Inc. ("McCoy", "McCoy Global" or the "Corporation") is incorporated and domiciled in Canada and provides equipment and technologies used for making up threaded connections in the global oil and gas industry. McCoy Global's core products are used predominantly during the well construction phase for both land and offshore wells during both oil and gas exploration. The Corporation is engaged in the:

- design, production and distribution of capital equipment used in both off-shore and land drilling markets to handle, make-up and measure tubular products, such as casing, and to support this capital equipment through the sale of aftermarket products and services; such as technical support, consumables (dies and inserts) and replacement parts;
- repair, maintenance and calibration of drilling and completions equipment; and
- rental of drilling and completions equipment.

Historically, McCoy was divided into two operating segments: Energy Products & Service ("EP&S") and Mobile Solutions. The EP&S segment comprised two divisions: Drilling & Completions and Coatings & Hydraulics. The Drilling & Completions division forms the Corporation's continuing operations.

Management committed to a formal process to divest both the Mobile Solutions segment and the Coatings & Hydraulics division in the fourth quarter of 2013 following a strategic decision to place greater focus on the Corporation's key competencies. On June 17, 2014, the Mobile Solutions segment was divested by the Corporation. On September 15, 2014, the Coatings & Hydraulics division was divested by the Corporation. A member of the Corporation's Board of Directors is the Chairman and Chief Executive Officer of, and holds an equity interest in, the corporation that purchased the Coatings & Hydraulics division. Results of the discontinued operations have been presented separately in the consolidated statements of (loss) earnings and comprehensive income and the consolidated statements of cash flows for the current and comparative years.

Set out below are McCoy's principal operations:

Operating Name	Country of Incorporation	Operating Region	Ownership Interest
Continuing Operations			
McCoy Global Canada Corp.	Canada	Canada	100%
McCoy Global S.à r.l.	Luxembourg	Middle East	100%
McCoy Global Singapore Pte. Ltd.	Singapore	Asia Pacific	100%
McCoy Global UK Ltd.	United Kingdom	Europe, Africa and Russia	100%
McCoy Global USA, Inc.	United States	United States and Latin America	100%
Discontinued Operations			
Inotec Coating and Hydraulics Inc.	Canada	Canada	-
Peerless Limited	Canada	Canada	-

McCoy and its subsidiary companies are collectively referred to herein as the "Corporation."

The address of the registered office of the Corporation is DLA Piper (Canada) LLP, Livingston Place, 1000 - 250 2nd Street SW, Calgary, Alberta. The Corporation is listed on the Toronto Stock Exchange under the symbol "MCB" and on the OTCQB under the symbol "MCCRF."

2. STATEMENT OF COMPLIANCE

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”).

These consolidated financial statements were approved by the Board of Directors on March 8, 2016.

3. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies used in the preparation of these consolidated financial statements are described below. These policies have been consistently applied to all years presented unless otherwise stated herein.

a) BASIS OF PRESENTATION

The consolidated financial statements include the accounts of the Corporation and its wholly owned subsidiaries. Intercompany transactions and balances are eliminated on consolidation.

The consolidated financial statements have been prepared mainly under the historical cost basis. Other measurement bases used are described in the applicable notes. The consolidated financial statements are presented in Canadian dollars, rounded to the nearest thousand, except when otherwise indicated. Subsidiaries incorporated in Canada have a functional currency of Canadian dollars. The Corporation’s principal operations in the United States, United Kingdom, Singapore, and the United Arab Emirates have a functional currency of US dollars.

Presentation of the consolidated statements of financial position differentiates between current and non-current assets and liabilities. The consolidated statements of earnings (loss) and comprehensive income are presented using the function classification for expenditures.

b) BASIS OF CONSOLIDATION

Subsidiaries are those entities the Corporation controls. The Corporation controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is obtained by the Corporation until the date control ceases.

The acquisition method of accounting is used to account for the acquisition of subsidiaries as follows:

- consideration transferred is measured at the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange;
- acquisition transaction costs are expensed as incurred;
- identifiable assets acquired and liabilities assumed are measured at their fair value at the acquisition date;
- the excess of the fair value of consideration transferred over the fair value of the identifiable net assets acquired is recorded as goodwill; and
- if the fair value of the consideration transferred is less than the fair value of the net assets acquired, the difference is recognized directly in the consolidated statements of earnings (loss) and comprehensive income.

c) CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of the Corporation’s consolidated financial statements requires management to make estimates and judgments about the future that affect the application of accounting policies and the reported amount of assets, liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. If these estimates and judgements prove to be inaccurate, future (loss) earnings may be materially impacted.

Estimates and underlying assumptions are reviewed on an ongoing basis and revisions to estimates are recognized prospectively. Actual results may differ from those estimates.

The areas involving a higher degree of judgment or estimation that are significant to the consolidated financial statements are as follows:

(i) INVENTORIES

The Corporation records inventories at the lower of cost and net realizable value. Write downs for inventories are recorded each period as required and updated based on management's judgment. Further information regarding this judgement is described in note 3(g) and note 5.

(ii) PROVISIONS

Estimates and judgments are used in measuring and recognizing provisions and the Corporation's exposure to contingent liabilities. Judgment is necessary to determine the likelihood and estimated future outflow of resources that may be required to settle any future or existing claims or contingent obligations. Further information regarding these estimates and judgments are described in note 3(k) and note 11.

(iii) INCOME TAX

The Corporation operates in several tax jurisdictions and is required to estimate its income taxes in each of these tax jurisdictions in preparing its consolidated financial statements. The calculation of income taxes requires the use of judgment. Further information regarding the judgement used is described in note 3(m) and note 19.

Deferred tax assets are recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Judgment and estimation is necessary to determine the likelihood and availability of future taxable profits against which tax losses and tax credits carried forward can be used. Further information regarding this judgement is described in note 3(m) and note 13.

(iv) IMPAIRMENT OF FINANCIAL ASSETS

The Corporation assesses at each reporting date whether there is objective evidence that a financial asset or a group of financial assets carried at amortized cost is impaired. Judgment is used in determining whether any indications of impairment over the loan or receivable are present and in determining the likelihood, timing and estimated future cash inflows related to the loan or receivable. Further information regarding the judgement used is described in note 21(b).

(v) IMPAIRMENT OF NON-FINANCIAL ASSETS

Long-lived assets include property, plant and equipment and intangible assets. The carrying value of these assets is periodically reviewed for impairment or whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable in accordance with the accounting policy stated in note 3(j). Judgment is required in the aggregation of assets into Cash Generating Units "CGUs".

The recoverable amounts of cash-generating units are determined based on value-in-use calculations. These calculations require the use of estimates and judgements, including an estimation of the future cash flows from the CGU or group of CGUs and judgment is required in determining the appropriate discount rate. In deriving the underlying projected cash flows, assumptions must also be made about the impact of future drilling activity on sales, operating margins and market conditions over the useful life of the assets or CGUs. Although estimates are consistent with current industry reports, internal planning and expected future operations, such estimations, are subject to uncertainty and judgment. Further information regarding the estimates and judgement used is described in note 9.

d) TRANSLATION OF FOREIGN CURRENCY**(i) FOREIGN CURRENCY TRANSACTIONS**

Monetary and non-monetary transactions denominated in foreign currencies are translated into the entity's functional currency at the exchange rate prevailing on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the exchange rate prevailing at the reporting date. Foreign currency translation differences are recognized in earnings or loss.

(ii) FOREIGN OPERATIONS

The assets and liabilities of foreign operations, including fair value adjustments arising on acquisition, are translated into Canadian dollars at the exchange rates at the reporting date. The earnings and expenditures of foreign operations are translated into Canadian dollars each month using the monthly average foreign exchange rate applicable for that month. Currency translation differences, including those on monetary items that form part of a net investment in a foreign operation, are recognized in other comprehensive income ("OCI") as a translation gain or loss on foreign operations, and may be subsequently reclassified to earnings or loss on disposal of a foreign operation.

e) FINANCIAL INSTRUMENTS

Financial assets and liabilities are recognized when the Corporation becomes a party to the contractual provisions of the instrument. Financial assets are derecognized when the rights to receive cash flows from the assets have expired or have been transferred and the Corporation has transferred substantially all risks and rewards of ownership. Financial liabilities are derecognized when the contractual obligation has been discharged, cancelled or expired.

(i) NON-DERIVATIVE FINANCIAL INSTRUMENTS

At initial recognition non-derivative financial instruments are measured at fair value and are classified as one of the following: held-for-trading, available-for-sale, held-to-maturity, loans and receivables or other financial liabilities.

The Corporation has designated its non-derivative financial instruments as follows:

Financial Instrument	Category	Measurement
Cash and cash equivalents	Loans and receivables	Amortized cost
Trade and other receivables	Loans and receivables	Amortized cost
Amounts held in escrow on business divestitures	Loans and receivables	Amortized cost
Trade and other payables	Other financial liabilities	Amortized cost

At the reporting date, the Corporation did not have any non-derivative financial assets classified as held-for-trading, available-for-sale or held-to-maturity.

• **LOANS AND RECEIVABLES**

Loans and receivables are initially recognized at the amount expected to be received, less, when material, a discount to reduce the loans and receivables to fair value. Subsequently, loans and receivables are measured at amortized cost using the effective interest method less a provision for impairment.

• **OTHER FINANCIAL LIABILITIES**

Trade payables are initially recognized at the amount required to be paid, less, when material, a discount to reduce the payables to fair value. Subsequently, trade payables are measured at amortized cost using the effective interest method.

(ii) DERIVATIVE FINANCIAL INSTRUMENTS

Foreign currency forward contracts may be used by the Corporation to manage foreign exchange exposures, consisting mainly of US dollar exposures, resulting from anticipated transactions denominated in foreign currencies.

All derivative financial instruments are classified as held-for-trading and are initially recognized at fair value, with any directly attributable transaction costs recognized in earnings or loss as they are incurred. Subsequent to initial recognition, derivative financial instruments are measured at fair value with changes in fair value recognized in earnings or loss.

The fair value of derivative financial instruments reflects changes in the foreign exchange rates. Fair value is determined based on exchange or over-the-counter price quotations by reference to bid or asking price, as appropriate, in active markets. Fair value amounts reflect management's best estimates using external readily observable market data, such as future prices, foreign exchange rates and discount rates for the time value of money.

f) CASH AND CASH EQUIVALENTS

Cash and cash equivalents primarily comprise Canadian dollar and US dollar cash on hand. The Corporation holds local currency for each location its operations are in for local purchases and expenditures.

g) INVENTORIES

Raw materials, work-in-progress and finished goods inventories are recorded at the lower of cost, as determined on a weighted average cost basis, and net realizable value.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. The cost of work-in-progress and finished goods inventories includes raw materials, direct labour and an estimated share of production overheads based on normal operating capacity. If the carrying value exceeds net realizable value, a write down is recognized. When the circumstances that previously caused inventories to be written down below cost no longer exist or when there is clear evidence of an increase in net realizable value because of changed economic circumstances, the amount of the write down is reversed, up to the amount of the original write down, so that the new carrying amount is the lower of the cost and the revised net realizable value.

Finished goods consist of parts and equipment inventories that are available for sale to external parties. Certain parts, classified as finished goods, may also be used in the production of finished goods.

h) PROPERTY, PLANT AND EQUIPMENT

(i) RECOGNITION AND MEASUREMENT

Items of property, plant and equipment (“PP&E”) are measured at cost less accumulated depreciation and any associated impairment losses.

Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bring the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located. General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

When parts of an item of PP&E have different useful lives, they are accounted for as separate major components of PP&E.

Gains and losses on disposals of PP&E are determined by comparing the proceeds with the carrying amount of the asset and are included as part of other gains and losses in earnings or loss.

(ii) SUBSEQUENT COSTS

Costs incurred subsequent to the asset being put into use are included in the asset’s carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Corporation and the cost can be measured reliably. The carrying amount of a replaced asset is derecognized when replaced. Repairs and maintenance costs are charged to earnings or loss as incurred.

(iii) DEPRECIATION

PP&E is depreciated on a straight-line basis over the period of their expected useful lives as follows:

Machinery and office equipment	3 – 15 years
Rental equipment	3 – 15 years
Computer equipment	1 – 5 years
Leasehold improvements	Term of related lease
Automotive equipment	3 – 10 years

No depreciation is charged on land. Depreciation is not recognized on assets under construction until such time that they are ready for their intended use. Residual values, method of depreciation and useful lives of the assets are reviewed annually and adjusted if appropriate. The effect of such changes is recognized in earnings or loss prospectively.

i) INTANGIBLE ASSETS

(i) INTERNALLY GENERATED INTANGIBLE ASSETS

Expenditures on research are recognized as an expense in earnings or loss as incurred.

Costs incurred on product development are capitalized as intangible assets when it is probable the development will provide economic benefits, considering its commercial and technical feasibility, the resources available for development and that costs can be measured reliably. The expenditure capitalized includes the cost of materials, direct labour and overhead costs that are directly attributable to the asset in order for it to be capable of operating in the manner intended by management. Subsequent to initial recognition, development expenditures are measured at cost less accumulated amortization and any accumulated impairment losses.

The Corporation has incurred costs associated with the purchase and development of computer software. Computer software is initially recorded at cost, including directly attributable expenditures that are necessary to prepare the software for its intended use. Costs associated with maintaining computer software are recognized as an expense as incurred. Subsequent to initial recognition, software development expenditures are measured at cost less accumulated amortization and any accumulated impairment losses.

(ii) OTHER INTANGIBLE ASSETS

Intangible assets are stated at cost less accumulated amortization and accumulated impairment losses.

Intangible assets acquired in business combinations include customer relationships, trade names and intellectual property.

(iii) AMORTIZATION

Intangible assets with finite lives are amortized on a straight-line basis over the period of their expected useful lives as follows:

Internally generated intellectual property	5 – 10 years
Acquired intellectual property	13 – 15 years
Internally generated software	5 years
Acquired trade names	3 years
Software	1 – 6 years
Acquired customer relationships	10 years

Amortization is not recognized on assets under development until such time that they are ready for their intended use.

j) IMPAIRMENT

(i) FINANCIAL ASSETS

The Corporation assesses at each reporting date whether there is objective evidence that a financial asset or a group of financial assets carried at amortized cost is impaired. If there is objective evidence, such as significant financial difficulty of the obligor, breach of contract or it becomes probable the debtor will enter bankruptcy, the asset is tested for impairment.

The amount of loss is measured as the difference between the amortized cost of the loan or receivable and the present value of the estimated future cash flows, discounted using the instrument’s original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account. If in a subsequent period the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed.

(ii) NON-FINANCIAL ASSETS

The carrying values of non-financial assets, such as PP&E and intangible assets with finite useful lives are tested for impairment when events or changes in circumstances indicate the carrying amount may not be recoverable. If any such indication exists, the recoverable amount of the asset is determined. Intangible assets with indefinite useful lives or under development are tested for impairment annually.

For impairment testing, assets are grouped together into CGUs, defined as the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets. Corporate assets are allocated to CGUs on a reasonable and consistent basis, where possible.

The recoverable amount of an asset or CGU is the greater of its fair value less costs to sell and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using an after-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the assets or CGU.

An impairment loss is recognized in earnings or loss for the amount by which the assets or CGU's carrying amount exceeds its recoverable amount. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of amortization, if no impairment loss had been recognized.

k) PROVISIONS

Provisions are recognized when the Corporation has a present legal or constructive obligation as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. The timing or amount of the outflow may still be uncertain.

Provisions are measured at management's best estimate of the expenditure required to settle the obligation at the end of the reporting period. Each obligation is discounted to present value using the expected future cash flows at a rate that reflects current market assessments of the time value of money and the risks specific to the liability.

l) LEASES

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to earnings or loss on a straight-line basis over the period of the lease.

Leases in which substantially all the risks and rewards of ownership have transferred to the Corporation are classified as finance leases. The leased assets are recognized at the lease's commencement at the lower of the fair value of the leased property and the present value of the minimum lease payments.

Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance lease balance outstanding. The corresponding rental obligations, net of finance charges, are included in finance lease obligations. The interest element of the finance cost is charged to earnings or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The assets acquired under finance leases are depreciated over the shorter of the useful life of the asset and the lease term.

m) INCOME TAX

Income tax expense comprises of current and deferred taxes. Current and deferred taxes are normally recognized in earnings or loss except to the extent that they relate to a business combination, or items recognized directly in equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income for the period, using the tax rates enacted, or substantively enacted, at the end of the reporting period and any adjustment to tax payable in respect of previous years. Current tax assets and liabilities are offset when they relate to taxes levied by the same tax authority on the same taxable entity and there is a legally enforceable right to offset the current tax assets and liabilities.

Deferred tax is recognized in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred tax assets and liabilities are determined on a non-discounted basis using tax rates and laws that have been enacted, or substantively enacted at the consolidated statements of financial position dates and are expected to apply when the deferred tax asset or liability is settled. Deferred tax assets are recognized to the extent that it is probable that the assets can be recovered. Deferred tax assets and liabilities are presented as non-current. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets and they relate to taxes levied by the same tax authority on the same taxable entity.

n) SHARE-BASED COMPENSATION**(i) EQUITY SETTLED SHARE-BASED COMPENSATION**

The Corporation grants share options to certain employees, which are equity settled. Each tranche in an award is considered a separate award with its own vesting period and grant date fair value. Fair value of each tranche is measured at the date of grant using the Black-Scholes option pricing model. Compensation expense is recognized as an employee expense over the tranche's vesting period based on the number of awards expected to vest, by increasing contributed surplus. The number of awards expected to vest is reviewed at least annually, with any impact recognized immediately.

(ii) CASH SETTLED SHARE-BASED COMPENSATION

The Corporation grants deferred share units to certain directors of the Corporation, which are cash settled. Fair value is measured at the date of grant using the Black-Scholes option pricing model. Compensation expense is recognized over the vesting period based on the number of awards expected to vest, by increasing or decreasing liabilities. The number of awards expected to vest is reviewed at least annually, with any impact recognized immediately. The fair value of the liability is remeasured on each consolidated statement of financial position date and settlement date, with any changes in fair value recognized in earnings or loss.

o) DIVIDENDS

Dividends on common shares are recognized in the consolidated financial statements in the period in which the dividends are declared by the Board of Directors of the Corporation.

p) SHARE CAPITAL

Common shares are classified as equity. Incremental costs directly attributable to the issuance of shares are recognized as a deduction from equity.

q) EARNINGS PER SHARE

The Corporation presents basic and diluted earnings per share ("EPS") data for its ordinary shares.

Basic EPS is calculated by dividing the net earnings for the year attributable to equity owners of the Corporation by the weighted average number of common shares outstanding during the year.

Diluted EPS is calculated by adjusting the weighted average number of common shares outstanding for dilutive instruments. The number of shares included with respect to options, warrants and similar instruments is computed using the treasury stock method. The Corporation's potentially dilutive common shares comprise share options granted to employees.

r) REVENUE**(i) SALE OF GOODS**

Revenues from the sale of goods are recognized when the risks and rewards of ownership have transferred, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably; there is no continuing management involvement with the goods; and the revenue can be measured reliably. Revenue is measured at the fair value of the consideration received or receivable for the sale of goods in the ordinary course of the Corporation's activities. Revenue is presented net of sales tax, returns and discounts and after eliminating sales within the Corporation.

The timing of the transfer of risks and rewards varies depending on the individual terms of the sales agreement, and typically occurs when goods are shipped and the title has passed to the customer. Provisions for estimated warranty costs are made at the time the related revenue is recognized.

(ii) RENDERING OF SERVICES

Revenues from repair, maintenance, and calibration services are recognized as the services are rendered, when recovery of the consideration is probable and revenue can be measured reliably. Rates for services are typically priced on a per man hour or similar basis.

(iii) RENTAL

Revenues from equipment rentals are recognized when there is a written arrangement in the form of a contract or purchase order with the customer, a fixed or determinable sales price is established with the customer, performance requirements are achieved and when recovery of the consideration is probable. Equipment rental revenue is recognized as performance requirements are achieved in accordance with the terms of the relevant agreement with the customer.

s) DISCONTINUED OPERATIONS

A discontinued operation is a component of the Corporation's business that either has been disposed of or is classified as held-for-sale and:

- comprises operations and cash flows that can be clearly distinguished from the rest of the Corporation;
- represents a separate major line of business or geographical area of operations; and
- is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations.

When a component is classified as a discontinued operation, the comparative consolidated statement of earnings (loss) and other comprehensive income ("OCI") is represented as if the operation had been discontinued from the start of the comparative year.

4. FUTURE ACCOUNTING PRONOUNCEMENTS

The International Accounting Standards Board (“IASB”) and the International Financial Reporting Interpretations Committee (“IFRIC”) have issued a number of new standards, amendments to standards and interpretations effective for annual periods beginning after January 1, 2016. These standards and amendments have not been applied by the Corporation in preparing these consolidated financial statements. Those that may be relevant to the Corporation are set out below.

Proposed standards and amendments	Description	Anticipated impact	Effective date
IFRS 11 – Accounting for Acquisitions of Interests in Joint Operations	Outlines specific guidance on accounting for the acquisition of an interest in a joint operation that is a business.	The new standard is not expected to have a significant impact on the Corporation.	January 1, 2016
IFRS 15 – Revenue from Contracts with Customers	Outlines a new revenue recognition model for contracts with customers based on the underlying principle that revenue is recognized at the amount the Corporation expects to be entitled to in exchange for goods or services under contract. Additional disclosure is also specified.	A formal assessment of the transitional implication to the Corporation will be completed in the future.	January 1, 2018
IFRS 9 – Financial Instruments - Classification and Measurement	Specifies that financial assets will be classified into one of two categories on initial recognition: financial assets measured at amortized cost or financial assets measured at fair value. The classification and measurement of financial liabilities remain generally unchanged.	The new standard is not expected to have a significant impact on the Corporation.	January 1, 2018
IFRS 7 – Financial Instruments - Disclosures	Specifies that additional disclosure is required on implementation of IFRS 9.	The new standard is not expected to have a significant impact on the Corporation.	January 1, 2018
IFRS 16 – Leases	Specifies that lessees are to recognize leases that were traditionally recorded as operating leases in a similar way to finance leases under existing IAS 17.	A formal assessment of the transitional implication to the Corporation will be completed in the future.	January 1, 2019

Management continues to evaluate the potential measurement and disclosure impacts of these new standards on the Corporation’s consolidated financial statements. The Corporation does not anticipate early adoption of these standards at this time.

5. INVENTORIES

	2015	2014
	\$	\$
Raw materials	2,837	1,997
Work-in-progress	4,963	5,667
Finished goods	35,976	33,766
	43,776	41,430

Finished goods consist of parts and equipment inventories that are available for sale to external parties. Certain parts, classified as finished goods, may be used in the production of finished goods.

During the year ended December 31, 2015, raw materials and changes in finished goods and work-in-progress inventories included in cost of sales amounted to \$44,612 (2014 - \$69,398).

During the year ended December 31, 2015, the net write down of inventories to net realizable value amounted to \$1,597 (2014 - \$956). The net write down is included in cost of sales. Inventory was assessed for obsolescence at a distinct part type level. If a distinct part type was not sold externally or consumed internally in the production process within two years prior to the statement of financial position date, the inventory was provided for during the year. Judgement was used in establishing the two year time frame to determine the estimated net realizable value of inventories on hand.

6. OTHER ASSETS

	Note	2015	2014
		\$	\$
Prepaid expenses, deposits and other		2,206	1,939
Deferred financing costs		-	253
Amounts held in escrow on business divestitures	25	1,415	2,262
Total other assets		3,621	4,454
Current portion of other assets		3,621	3,012
Other assets		-	1,442

Amounts held in escrow relate to the consideration to be received on the sale of businesses as described in note 25. Escrow funds are held in trust with legal counsel and are to be released to the Corporation based on scheduled dates as per the relevant purchase and sale agreement. Of the \$1,415 held in escrow, \$950 is past the scheduled payment dates per the share purchase agreements. The Corporation is working with the respective purchasers to facilitate the release of the funds from escrow. It is management's judgement that proceeds will be released from escrow within twelve months of the statement of financial position date.

Included in prepaid expenses, deposits and other is estimated proceeds relating to working capital balances associated with the Coatings & Hydraulics division divestiture (note 22). It is management's judgement that proceeds relating to working capital balances will be released within twelve months of the statement of financial position date.

Certain amounts within other assets are due from related party transactions as disclosed in note 22.

7. PROPERTY, PLANT AND EQUIPMENT

Balances at December 31, 2015	2,133	8,229	1,093	2,900	1,363	1,806	17,524
Carrying amounts							
At December 31, 2014	5,207	4,201	2,190	1,893	350	602	14,443
At December 31, 2015	4,674	-	1,642	-	-	580	6,896

During the year ended December 31, 2015, amortization included in cost of sales amounted to \$1,198 (2014 - \$818); amortization in general and administration amounted to \$865 (2014 - \$757); and amortization included in sales and marketing amounted to \$1,110 (2014 - \$1,106).

Included in internally generated intellectual property is \$3,161 (2014 - \$4,732) that relates to products under development. A product under development is not amortized until it has reached commercial production.

The remaining amortization period of the finite-life intangible assets is as follows:

	2015	2014
Internally generated intellectual property	1 – 7 years	2 – 8 years
Acquired intellectual property	-	8 – 9 years
Internally generated software	3 years	4 years
Acquired customer relationships	-	1 – 3 years
Acquired trade names	-	2 years
Software	1 – 2 years	1 – 3 years

a) INTERNALLY GENERATED INTELLECTUAL PROPERTY

In response to declining industry trends, the Corporation reviewed new product technology projects currently under development. Management has determined that there are no future economic benefits expected from the use of certain of these assets. Accordingly, the Corporation recognized an impairment charge of \$1,133 (2014 - \$202) against internally generated intellectual property.

b) ACQUIRED INTELLECTUAL PROPERTY

Acquired intellectual property comprises engineering designs, drawings, patents, and know-how obtained through the acquisition of McCoy Global USA Inc., formerly, Superior Manufacturing and Hydraulics Inc. and Precision Die Technologies LLC ("Superior"), in 2007. At December 31, 2015, it was determined that the acquired intellectual property had no future economic benefits as a result of current market conditions combined with changes to the Corporation's production processes, engineering drawings, equipment and product mix that have occurred since the time of acquisition. Accordingly, the Corporation recognized an impairment charge of \$3,632 (2014 - \$nil) against acquired intellectual property.

c) ACQUIRED TRADE NAMES

Acquired trade names comprise the brands obtained through the acquisition of Superior. The useful life of the Superior trade name was re-assessed in December 2013 as a result of the Corporation's re-branding. At that time, the useful life of the trade name was adjusted to three years. Management re-assessed the trade name and determined that no future economic benefits are expected from the use of the asset. Accordingly, the Corporation recognized an impairment charge of \$926 (2014 - \$nil) against acquired trade names.

d) ACQUIRED CUSTOMER RELATIONSHIPS

Acquired customer relationships comprise the customer lists obtained through the acquisition of Superior. At December 31, 2015, it was determined that the acquired customer relationships had no expected future economic benefits from its use as a result of both current market conditions combined with changes to the make-up of the Corporation's customer base that have occurred since the time of acquisition. Accordingly, the Corporation recognized an impairment charge of \$207 (2014 - \$nil) against acquired customer relationships.

9. IMPAIRMENT OF NON-FINANCIAL ASSETS

The Corporation reviews the carrying value of its non-financial assets at each reporting period for indicators of impairment. During the year ended December 31, 2015 the Corporation determined that low commodity prices and the industry decline in drilling and completions activity levels was an indicator of impairment and performed a comprehensive assessment of the carrying values of non-financial assets. The recoverable amounts of non-financial assets were estimated based on their value in use, determined by discounting estimated future cash flows expected to be generated by the assets or CGU to which it was assigned. Due to the nature of the decline, all identified CGUs, including all geographical components, were assessed as part of the impairment assessment.

Key assumptions used in the estimation of value in use included the after-tax discount rate of 13% and management expectation of future outcomes and market conditions, including forecasted North American and international rig and well counts. Based on industry forecasts, average projected annual revenue growth over the next five years was estimated at 5%. No terminal value growth rate was used due to the finite lives of the underlying assets of the CGU. Discount rates were derived from the Corporation's estimated weighted average cost of capital, adjusted for risk factors specific to the CGUs.

The weighted average growth rates used are consistent with forecasts included in industry reports. The discount rates used are after-tax and reflect specific risks relating to the CGU. The process for determining fair value is subjective and requires management to exercise a significant amount of judgment in determining future growth rates, discount rates and tax implications.

Upon completion of the impairment assessment, it was determined that no impairment was to be recognized on the Corporation's non-financial assets. No significant changes in any of the key assumptions would have resulted in an impairment charge in any CGU.

10. TRADE AND OTHER PAYABLES

	Note	2015	2014
		\$	\$
Trade payables		3,370	8,007
Accrued liabilities and other payables		2,911	6,552
Cash settled share-based compensation	15(b)	251	560
		6,532	15,119

11. PROVISIONS

	Warranty	Legal	Site remediation	Total
	\$	\$	\$	\$
Balances at January 1, 2014	1,523	-	64	1,587
Provisions made during the year	1,330	150	1,400	2,880
Provisions utilized during the year	(1,426)	-	(104)	(1,530)
Amounts transferred from liabilities of disposal groups held-for-sale	-	-	1,000	1,000
Foreign exchange	184	-	-	184
Balances at December 31, 2014	1,611	150	2,360	4,121
Provisions made during the year	402	12	-	414
Provisions utilized during the year	(1,177)	(12)	-	(1,189)
Foreign exchange	157	-	-	157
Balances at December 31, 2015	993	150	2,360	3,503
Expected to be utilized within one year	993	-	2,360	3,353
Expected to be utilized thereafter	-	150	-	150

The warranty provision relates to the expected cost of meeting warranty obligations. Judgement related to the provisions is based on historical data and is an estimate of warranty required for products sold on or before the reporting date.

In the normal course of business, the Corporation may become subject to litigation; losses, if any, may be covered by the Corporation's insurance. The legal provision is based on management's best estimate of the amount and timing of potential settlements.

The Corporation leases premises which are required to be returned to the landlord at the end of the lease in accordance with the terms of the lease agreement, including remediation of any deficiencies incurred as a result of carrying out business activities. In addition, as part of the business divestitures disclosed in note 25, the Corporation has indemnified the purchasers with respect to certain leased premises associated with businesses sold by the Corporation as described in note 22(a) and 25. The site remediation provision is based on management's estimate of the expected costs of restoring its locations or former locations to a condition that is in accordance with lease terms. When available, costs are estimated based on management's assessment of third party quotations to complete the required remediation efforts. If third party quotations are not available, management has used the best information available to assess the future costs to be incurred by the Corporation. Judgment related to these future costs is based on uncertainty regarding the full extent of the required costs to be completed.

12. BORROWINGS

a) REVOLVING CREDIT FACILITY

As at December 31, 2015, the Corporation has a \$50.0 million committed senior secured revolving credit facility with its lenders, maturing on May 31, 2018. On July 13, 2015, the Corporation amended the credit agreement to revise certain covenants imposed under the original agreement and extended its maturity date to May 31, 2018. The credit facility includes an accordion feature, which provides for an increase of the credit facility of up to \$30 million at the option of the Corporation, subject to approval of the lenders. Under the terms of the credit facility, funds may be advanced in either Canadian or US currency and will bear interest at the Canadian prime rate, US base rate or LIBOR, plus a margin of between 0.50% and 2.75% (2014 – 0.75% to 2.00%). The terms of the amended and restated credit facility changed the standby fee to a variable percentage between 0.34% and 0.62% (2014 – 0.4%) dependent on certain financial covenants. The credit facility requires the Corporation to meet certain covenants and is secured by a general security agreement over all subsidiaries that have provided security.

As at December 31, 2015, the Corporation is not in compliance with certain of the financial covenants specified in the credit facility agreement (note 21(c)) and is currently unable to access the credit facility. The Corporation is in ongoing discussions with its lenders to obtain a waiver. Subsequent to December 31, 2015, the Corporation reduced the maximum principal outstanding under the revolving credit facility from \$50.0 million to \$25.0 million, effective February 5, 2016 (note 27).

Amortization of \$432 (2014 – \$280) is recognized in finance charges, net in the consolidated statements of (loss) earnings and comprehensive income.

b) LETTER OF CREDIT

The Corporation's revolving credit facility includes a \$5.0 million committed senior letter of credit facility. As at December 31, 2015, the Corporation has committed \$56 (2014 – \$76) of the facility through the issuance of letters of credit. The funds available under the revolving credit facility are reduced by any outstanding letters of credit.

13. DEFERRED TAXES

a) RECOGNIZED DEFERRED TAX ASSETS AND LIABILITIES

The income tax effects of temporary differences that give rise to significant portions of the deferred tax assets and liabilities are presented below:

	2015			2014		
	Assets	Liabilities	Net	Assets	Liabilities	Net
	\$	\$	\$	\$	\$	\$
Intangible assets	2,403	(1,437)	966	1,161	(1,857)	(696)
Accrued liabilities	893	-	893	498	-	498
Inventories	597	-	597	1,841	-	1,841
Provisions	360	-	360	601	-	601
Other	205	-	205	152	(411)	(259)
PP&E	43	(2,732)	(2,689)	42	(2,823)	(2,781)
Carryforward tax loss	-	-	-	1,372	-	1,372
Deferred tax assets (liabilities)	4,501	(4,169)	332	5,667	(5,091)	576
Set off of tax	(3,865)	3,865	-	(3,370)	3,370	-
Net deferred tax assets (liabilities)	636	(304)	332	2,297	(1,721)	576

With respect to deferred tax assets and liabilities presented above, \$1,850 of the deferred tax assets (2014 – \$2,940), and \$411 (2014 – \$625) of the deferred tax liabilities are expected to reverse in 2016.

b) UNRECOGNIZED DEFERRED TAX ASSETS

Deferred tax assets have not been recognized in respect of \$12,961 (2014 - \$nil) in tax loss carryforwards of subsidiaries in certain foreign jurisdictions. Based on management's current estimates of future taxable earnings in these jurisdictions, the recoverability of tax losses is undeterminable. As a result, the deferred tax asset associated with these tax losses has not been recognized. These losses can be carried forward indefinitely and do not expire.

Deferred tax assets have not been recognized in respect of \$750 (2014 - \$7,966) in capital losses. It is not probable that future taxable capital gains will be available against which the Corporation can utilize the benefits of these losses. These losses do not expire.

14. SHAREHOLDERS' EQUITY

a) SHARE CAPITAL

AUTHORIZED

- (i) Unlimited number of common, voting shares
- (ii) Unlimited number of preferred, non-voting shares

b) DIVIDENDS

Dividend declared	Dividend paid	Total dividend	Amount per common share
		\$	\$
May 15, 2015	June 11, 2015	1,385	0.05
March 11, 2015	April 13, 2015	1,385	0.05
December 4, 2014	December 31, 2014	1,383	0.05
September 9, 2014	October 8, 2014	1,383	0.05
May 23, 2014	June 20, 2014	1,383	0.05
March 14, 2014	April 14, 2014	1,381	0.05

On September 3, 2015, the Board of Directors approved the suspension of quarterly dividend payments. Future declarations of dividends is at the sole discretion of the Board of Directors and will continue to be evaluated on a quarterly basis.

15. SHARE-BASED COMPENSATION

a) EQUITY SETTLED SHARE-BASED COMPENSATION

The Corporation's share option plan for employees is administered by the Compensation and Human Resources Committee, which is a subcommittee of the Board of Directors. The Compensation and Human Resources Committee designates eligible participants to be included under the plan and designates the number of options and share price of the options, subject to applicable securities laws and stock exchange regulations.

The aggregate number of common shares issuable under the plan can be no greater than 10% of the common shares issued and outstanding from time to time on a non-diluted basis. In addition, no more than 5% of outstanding shares may be reserved for options granted to any one person and no more than 10% of outstanding shares may be reserved for options granted to insiders. On March 11, 2015, the Board of Directors amended the share option plan to extend the maximum term of options granted under the plan from five to ten years and extend the vesting period of option grants from three to five years for options granted on or after March 11, 2015. Options granted prior to March 11, 2015 vest over three years with a maximum term of five years. The options vest evenly over the vesting period. The exercise price of options is determined by the Board of Directors, but cannot be lower than the market price of shares on the last trading day preceding the grant date.

The following reflects activity under the employee share option plan:

	2015		2014	
	Number of options	Weighted average exercise price	Number of options	Weighted average exercise price
	#	\$	#	\$
Outstanding, as at January 1	1,078,337	5.74	1,271,672	4.98
Granted	695,000	3.65	450,000	5.81
Forfeited	(33,334)	6.70	(346,669)	5.12
Expired	(50,000)	4.56	(6,666)	3.49
Exercised	(10,000)	3.49	(290,000)	3.32
Outstanding, December 31	1,680,003	4.90	1,078,337	5.74
Exercisable, December 31	596,662	5.57	311,663	5.24

Options with the following exercise price ranges were outstanding as at December 31:

Exercise price range	2015		2014	
	Options outstanding	Weighted average remaining contractual life	Options outstanding	Weighted average remaining contractual life
	#	years	#	years
\$2 to \$4	845,003	7.81	193,337	1.81
\$4 to \$6	330,000	3.61	330,000	4.61
\$6 to \$8	505,000	2.95	555,000	3.94
	1,680,003	5.52	1,078,337	3.76

The following weighted average assumptions were used in the Black-Scholes calculations for share options granted during the years ended December 31:

	2015	2014
Share price	\$3.65	\$5.81
Exercise price	\$3.65	\$5.81
Expected volatility	58%	38%
Risk-free interest rate	1%	2%
Annual dividend rate	6%	3%
Expected life of options in years	7.0 years	3.5 years

The expected life of the options is based on historical data and is not necessarily indicative of exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome.

The weighted average fair value of share options granted during the year was \$1.23 per share option (2014 - \$1.32 per share option) and the weighted average share price of options exercised during the year was \$4.97 (2014 - \$6.11).

b) CASH SETTLED SHARE-BASED COMPENSATION

The Corporation has a deferred share unit (“DSU”) plan for Directors of the Corporation who are designated as participants by the Compensation and Human Resources Committee. The DSU plan has two components: an “appointment grant” and a “continuous grant.” The appointment grant is provided to each newly appointed Director. The appointment grant fully vests on the third anniversary of the grant date. The continuous grant provides for an annual issue of DSUs to eligible Directors. One-third of the continuous grant vests annually on the anniversary of the grant date. The deferred share units can only be exercised on exiting from the Board of Directors.

On exiting from the Board of Directors, the deferred share units are redeemed for cash based on the market price of the shares. The liability relating to the units accumulated under this plan have been included in trade and other payables on the consolidated statements of financial position as disclosed in note 10.

	2015	2014
	#	#
Outstanding, as at January 1	168,862	153,318
Granted	32,451	15,544
Forfeited	(9,819)	-
Exercised	(38,499)	-
Outstanding, as at December 31	152,995	168,862
Vested, as at December 31	112,225	129,069

c) SHARE-BASED COMPENSATION EXPENSE

	2015	2014
	\$	\$
Equity settled share-based compensation	543	508
Cash settled share-based compensation	(150)	(300)
	393	208

This compensation expense has been included in general and administration in the consolidated statements of earnings (loss) and comprehensive income.

16. REVENUE

	2015	2014
	\$	\$
Sale of goods	77,468	115,341
Rendering of services	3,842	4,984
Rental	466	294
	81,776	120,619

17. EXPENSES BY NATURE

	2015	2014
	\$	\$
Wages and salaries expense	31,914	32,468
Depreciation of property, plant and equipment	4,438	3,679
Amortization of intangible assets	3,173	2,681
Operating lease expense, net of sub lease recoveries	2,353	2,551
Gain on foreign exchange	(2,265)	(1,003)

18. FINANCE CHARGES, NET

	2015	2014
	\$	\$
Standby fees on credit facility	238	227
Amortization of deferred financing costs	431	280
Finance charges	669	507
Finance income	(65)	(133)
Finance charges, net	604	374

19. INCOME TAX (RECOVERY) EXPENSE

a) RECONCILIATION OF INCOME TAX (RECOVERY) EXPENSE

Income tax (recovery) expense varies from the amounts that would be computed by applying the domestic statutory rate of 26% (2014 - 25%) to (loss) earnings from continuing operations before tax for the following reasons:

	2015	2014
	\$	\$
(Loss) earnings from continuing operations before income taxes	(11,038)	13,167
Computed income tax (recovery) expense	(2,870)	3,292
Tax effects of:		
Jurisdictional tax rate differences	1,275	753
Non-deductible expenses	172	15
Recognition of previously unrecognized deferred tax assets	(895)	(285)
Tax losses for which no deferred tax asset was recognized	2,324	-
Other items	(67)	23
Income tax (recovery) expense	(61)	3,798

b) INCOME TAX EXPENSE ON EARNINGS FROM CONTINUING OPERATIONS

	2015	2014
	\$	\$
Current tax (recovery) expense	(668)	5,063
Deferred tax (recovery) expense:		
Origination and reversal of temporary differences	(822)	(980)
Recognition of previously unrecognized deferred tax assets	(895)	(285)
Tax losses for which no deferred tax asset was previously recognized	2,324	-
Total deferred tax expense (recovery)	607	(1,265)
Income tax (recovery) expense	(61)	3,798

20. (LOSS) EARNINGS PER SHARE

	2015			2014		
	Loss	Weighted average shares	Per share amount	Earnings	Weighted average shares	Per share amount
	\$	#	\$	\$	#	\$
Basic earnings per share						
(Loss) earnings from continuing operations available to common shareholders	(10,977)	27,699,499	(0.40)	9,369	27,618,939	0.34
Earnings from discontinued operations available to common shareholders	-	27,699,499	-	8,638	27,618,939	0.31
(Loss) earnings available to common shareholders	(10,977)	27,699,499	(0.40)	18,007	27,618,939	0.65
Diluted earnings per share						
Dilutive effect of options		-			124,881	
(Loss) earnings from continuing operations available to common shareholders	(10,977)	27,699,499	(0.40)	9,369	27,743,820	0.34
Earnings from discontinued operations available to common shareholders	-	27,699,499	-	8,638	27,743,820	0.31
(Loss) earnings available to common shareholders	(10,977)	27,699,499	(0.40)	18,007	27,743,820	0.65

The Corporation has excluded 1,680,003 share options from the computation of diluted earnings per share (2014 – nil share options) because they are anti-dilutive for the period presented.

21. FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

a) FAIR VALUES OF FINANCIAL ASSETS AND LIABILITIES

(i) NON-DERIVATIVE FINANCIAL INSTRUMENTS

The fair value of cash and cash equivalents, trade and other receivables and trade and other payables approximate their carrying value due to their short-term nature.

(ii) DERIVATIVE FINANCIAL INSTRUMENTS

At December 31, 2015, the Corporation had financial instruments recorded as a fair value liability in the statements of financial position in the amount of \$nil (2014 - \$977).

At December 31, 2014, the Corporation had forward foreign exchange contracts outstanding to purchase US\$12,000 at a rate of 1.083. All contracts matured within one to twelve months of December 31, 2014. The Corporation's derivative financial instruments related to forward foreign exchange contracts are recorded at fair value in the consolidated statements of financial position. Fair values were categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).
- Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The forward foreign exchange contracts were classified as Level 2 and the fair value was determined based on exchange or over-the-counter price quotations by reference to bid or asking price, as appropriate, in active markets. Fair value amounts reflected management's best estimates using external readily observable market data, such as future prices, foreign exchange rates and discount rates for the time value of money.

The change in value of the derivative financial instruments at the consolidated statements of financial position dates resulted in a decrease in the liability of \$977 (2014 - increase of \$675). The change in the value of the derivative financial instruments was recorded in other (gains) losses, net.

b) FINANCIAL RISK MANAGEMENT

The Corporation's activities are exposed to a variety of financial risks of varying degrees of significance, which could affect the Corporation's ability to achieve strategic objectives. Overall, risk management programs focus on the unpredictability of financial and economic markets and seek to minimize potential adverse effects on financial performance. Risk management is carried out by financial management in conjunction with overall corporate governance. The principal financial risks to which the Corporation is exposed are described below:

(i) MARKET RISK

Market risk is the risk changes in market prices, such as foreign exchange rates and interest rates, will affect the Corporation's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing return. The Corporation may use derivatives to manage certain market risks.

- **Foreign currency risk**

The Corporation is exposed to foreign currency risk to the extent that there is a mismatch between the currencies in which revenues, purchases and monetary assets and liabilities are denominated and the respective functional currencies of the Corporation's subsidiaries. Foreign currency risk is primarily with the US dollar. The Corporation may use forward exchange contracts with maturities of less than one year from the reporting date to manage the foreign currency risk.

The Corporation recognized a foreign currency exchange gain of \$2,265 in other (gains) losses, net (2014 - gain of \$1,003). Based on the Corporation's US dollar denominated monetary assets and liabilities at December 31, 2015, the Corporation estimates that a one cent change in the value of the US dollar would increase or decrease net earnings, net of tax, by \$142 (2014 - \$229).

- **Interest rate risk**

Interest rate risk is the risk the value or future cash flows of a financial instrument will fluctuate as a result of changes in market interest rates. In 2015 and 2014, the Corporation was primarily exposed to interest rate risk on cash and cash equivalents. The Corporation estimates that a change of 100 basis points in the interest rate as at December 31, 2015 would have increased or decreased net earnings, net of tax, for the year ended December 31, 2015 by \$204 (2014 - \$224), primarily arising from interest income earned on cash and cash equivalents.

(ii) CREDIT RISK

Credit risk is the risk one party to a financial instrument will cause a financial loss to the other party by failing to discharge an obligation. The Corporation’s credit risk exposure is primarily through its cash and cash equivalents, trade receivables and amounts held in escrow on business divestitures.

The credit risk associated with cash and cash equivalents is minimized by ensuring these financial assets are held primarily with Canadian chartered banks and Schedule I US financial institutions.

The credit risk associated with amounts held in escrow on business divestitures is minimized as the funds are held in trust with third party legal counsel, in Canadian chartered banks. The Corporation has assessed the credit risk associated with the estimated proceeds related to working capital balances associated with the business divestiture, and has reviewed the balance for indication of impairment. Based on management’s judgement, no provision for impairment is considered necessary at the present time.

Trade receivables include balances due from customers primarily operating in the oil and gas industry. The Corporation manages credit risk by assessing the creditworthiness of its customers before providing products or services and on an ongoing basis as well as monitoring the amount and age of balances outstanding. In some instances, the Corporation will take additional measures to reduce credit risk including obtaining letters of credit and prepayments from customers.

As of December 31, trade receivables were classified as follows:

	2015	2014
	\$	\$
Fully performing	5,391	10,374
Past due but not impaired	3,110	11,011
Indications of impairment	229	287
Trade receivables	8,730	21,672

The credit quality of fully performing receivables is determined based on credit evaluations and management’s past experience with the customers. Past due but not impaired trade receivables relate to a number of independent customers for whom there is no recent history of default. Management reviews trade receivable balances periodically for indications of possible impairment. Trade receivables with indications of possible impairment primarily relate to balances past due from customers that are no longer deemed to be creditworthy. Management has determined on a customer by customer basis that impairment provisions of \$229 (2014 - \$287) are sufficient to cover credit risk.

As at December 31, 2015, the Corporation had one customer that accounted for \$1,111 (13%) of total trade receivables (2014 - \$6,560, 30%).

The aging analysis of trade receivables is as follows:

As at December 31	2015	2014
	\$	\$
0 to 30 days	2,654	6,866
31 to 60 days	2,737	3,508
61 to 120 days	3,130	3,657
Over 120 days	209	7,641
Trade receivables	8,730	21,672
Provisions for impairment	(229)	(287)
Trade receivables, net of impairment	8,501	21,385
Other receivables	602	1,318
Total trade and other receivables	9,103	22,703

The movement in the Corporation's provision for impairment of trade receivables is as follows:

For the years ended	2015	2014
	\$	\$
Provision for impairment, as at January 1	(287)	-
Impairment loss recognized	(111)	(287)
Amounts written off	197	-
Foreign exchange	(28)	-
Provision for impairment, as at December 31	(229)	(287)

(iii) LIQUIDITY RISK

Liquidity risk is the risk the Corporation will not be able to meet its obligations with financial liabilities as they come due. The Corporation maintains sufficient cash and cash equivalents to meet financial obligations. Based on remaining contractual maturities, the undiscounted cash flows for the Corporation's financial liabilities, including interest payments, consist of \$6,532 (2014 - \$15,119) of trade and other payables and \$nil (2014 - \$977) of derivative financial instruments, which mature within one year of the consolidated statements of financial position dates. As at December 31, 2015, the Corporation has commitments to purchase inventory and operating supplies of \$795 (2014 - \$3,135). Payments for these commitments are expected to be made in 2016.

The Corporation also has commitments under operating leases for premises and equipment that mature in over one year as described in note 26.

c) CAPITAL MANAGEMENT

The Corporation's objectives when managing its capital are to safeguard assets and continue as a going concern while, at the same time, maximizing the growth of the business and return to shareholders. The Corporation views its capital as the combination of borrowings as well as shareholders' equity as follows:

	2015	2014
	\$	\$
Borrowings	-	-
Shareholders' equity	97,469	102,373
Total capital	97,469	102,373

The Corporation sets the amount of capital in proportion to risk and manages and makes adjustments to the capital structure in light of changes in economic conditions and the risk characteristics of underlying assets. In order to maintain or adjust the capital structure, the Corporation may issue or repay borrowings, issue or repurchase shares, pay dividends or undertake other activities as deemed appropriate under the specific circumstances.

The Corporation is subject to certain restrictive covenants under the revolving credit facility agreement with its lenders. These covenants are measured on a quarterly basis. Financial covenants stipulated by the agreement include maintenance of a:

- trailing twelve-month funded debt to EBITDA ratio as defined by the agreement; and
- trailing twelve-month fixed charge coverage ratio as defined by the agreement.

As at December 31, 2015, the Corporation is not in compliance with the trailing twelve-month fixed charge coverage ratio and is unable to access the credit facility. The Corporation is in ongoing discussions with its lenders to obtain a waiver, however, it is unlikely that the Corporation will be able to access its credit facility in the near term even if a waiver is obtained.

In addition to the financial covenants noted above, the Corporation is also subject to further covenants including, but not limited to, restrictions on mergers or acquisitions, the disposition of the Corporation's assets, distributions, financial instruments and changes to the nature of the Corporation's business or operations.

Other than the restrictive covenants contained in the debt agreement, neither the Corporation nor any of its subsidiaries are subject to externally imposed capital requirements.

The Board of Directors reviews and approves any material transactions out of the ordinary course of business including proposals on acquisitions or other major investments or divestitures, as well as annual capital and operating budgets.

22. RELATED PARTY TRANSACTIONS

a) DIVESTITURE OF COATINGS & HYDRAULICS DIVISION

On September 15, 2014, the Corporation divested the Coating & Hydraulics division. A member of the Corporation's Board of Directors is the Chairman and Chief Executive Officer of, and holds an equity interest in, the purchaser of the Coatings & Hydraulics division. To facilitate the sale and minimize any potential conflicts of interest, the Corporation engaged a third party brokerage firm to solicit offers within the marketplace, manage the sales process and assist in negotiating the definitive agreements.

The final net proceeds received and the gain recognized on the sale is subject to change, pending the finalization of net working capital balances as defined by the share purchase agreement. The amount held in escrow and estimated proceeds relating to working capital balances associated with the divestiture is included in other assets (note 6).

The Corporation has entered into agreements indemnifying the purchaser with respect to certain leased premises associated with the Coatings & Hydraulics division as described in note 11.

The Corporation has also guaranteed certain leases as part of the divestiture of the Coating & Hydraulics division should the purchaser be unable to satisfy obligations under the leases as disclosed in note 26. Minimum aggregate future lease payments of the guaranteed leases are \$299. The lease agreements expire in July of 2016 and the purchaser has the option to extend the lease for five years with annual lease payments negotiated at market rates.

b) OPERATING LEASE EXPENSE

The Corporation has three lease agreements with companies controlled by individuals who were Directors of the Corporation's Board until May 14, 2015. These individuals are also Directors of Foundation Equity Corporation ("Foundation"), a 22% shareholder from January 1, 2015 to May 20, 2015 and a 19% shareholder from May 21, 2015 to December 15, 2015. Foundation divested of its 19% shareholdings of the Corporation on December 15, 2015. The following is a summary of each agreement:

- (i) Minimum annual lease payments of \$384 until 2018. At the conclusion of the lease in 2018, the Corporation has the option to extend the lease for five years with annual lease payments negotiated at market rates.
- (ii) Minimum annual lease of \$733 until 2018. The Corporation has the option to extend the lease for five years with annual lease payments negotiated at market rates.
- (iii) Minimum annual lease payments of \$256 until 2018.

The Corporation recorded an annual operating lease expense of \$1,117 (during the year ended December 31, 2014 - \$1,357) with respect to related party operating leases disclosed above. In addition to regularly scheduled lease payments, the Corporation paid \$nil (2014 - \$196) to one of the companies controlled by the related parties to reimburse the related party for certain facility expenses.

c) KEY MANAGEMENT PERSONNEL

Key management personnel include the Directors and senior corporate officers of the Corporation who are primarily responsible for planning, directing and controlling the Corporation's business activities.

Compensation awarded to key management personnel for employee services for the years ended December 31, 2015 and 2014 are as follows:

	2015	2014
	\$	\$
Salaries and other short-term employee benefits	2,311	2,400
Share-based compensation (recovery)	334	(6)
Termination benefit	-	656
	2,645	3,050

23. SEGMENT INFORMATION

GEOGRAPHIC INFORMATION

	2015		2014	
	Revenue	PP&E & intangible assets	Revenue	PP&E & intangible assets
	\$	\$	\$	\$
United States	30,997	8,931	63,896	9,370
Europe, Africa and Russia	26,321	1,464	33,761	1,345
Middle East	8,761	291	5,977	121
Asia Pacific	6,831	1,096	8,436	1,007
Canada	5,704	10,519	5,099	19,338
Latin America	3,162	-	3,450	-
	81,776	22,301	120,619	31,181

Revenue is attributed to a geographical region based on the location of the customer invoiced, which may not necessarily reflect the product's final destination.

During the year ended December 31, 2015, one customer accounted for 12% (2014 - 11%) of the Corporation's total revenue.

24. CHANGES IN WORKING CAPITAL BALANCES

	2015	2014
Cash (used in) operating activities from continuing operations due to changes in non-cash working capital balances:	\$	\$
Trade and other receivables	15,899	(7,161)
Inventories	3,864	(4,939)
Other current assets	(224)	(538)
Trade and other payables	(9,526)	(667)
Customer deposits	(5,171)	(1,710)
Provisions	(821)	62
	4,021	(14,953)

25. DISCONTINUED OPERATIONS AND DISPOSAL GROUPS HELD-FOR-SALE

Management committed to a formal process to divest the Mobile Solutions segment and the Coating & Hydraulics division in the fourth quarter of 2013 following a strategic decision to place greater focus on the Corporation's key competencies. The assets and liabilities of both operations were reclassified to discontinued operations in 2013 and divested in 2014.

a) DISPOSAL OF MOBILE SOLUTIONS SEGMENT

On June 17, 2014, the Mobile Solutions segment was divested by the Corporation. The operating results and gain on sale relating to Mobile Solutions have been included in earnings from discontinued operations in the consolidated statements of (loss) earnings and comprehensive income.

The net assets disposed of on June 17, 2014 related to the sale of the Mobile Solutions segment is as follows:

	June 17, 2014
	\$
Cash consideration received, net of working capital and other adjustments	12,029
Bank indebtedness transferred	151
Amount held in escrow	1,332
Total consideration	13,512
Current assets, excluding bank indebtedness transferred	7,240
Property, plant and equipment	6,528
Intangible assets	51
Current liabilities	(5,043)
Deferred tax liabilities	(1,067)
Net assets and liabilities	7,709
Costs to sell	547
Gain on disposal	5,256

b) DISPOSAL OF COATING & HYDRAULICS DIVISION

On September 15, 2014, the Coatings & Hydraulics division was divested by the Corporation. A member of the Corporation's Board of Directors is the Chairman and Chief Executive Officer of, and holds an equity interest in, the corporation that purchased the Coatings & Hydraulics division. The operating results and gain on sale relating to the Coatings & Hydraulics division have been included in earnings from discontinued operations in the consolidated statements of (loss) earnings and comprehensive income. The final net proceeds received and the gain recognized on the sale is subject to change, pending the finalization of net working capital balances as defined by the share purchase agreement.

The net assets disposed of on September 15, 2014 related to the sale of the Coatings & Hydraulics division is as follows:

	September 15, 2014
	\$
Cash consideration received	8,340
Bank indebtedness transferred	103
Amount held in escrow	930
Other receivables	512
Total consideration	9,885
Current assets, excluding bank indebtedness transferred	3,038
Property, plant and equipment	5,026
Intangible assets	1,087
Current liabilities	(1,147)
Deferred tax liabilities	(1,324)
Net assets and liabilities	6,680
Costs to sell	1,031
Gain on disposal	2,174

c) RESULTS OF DISCONTINUED OPERATIONS

	2015	2014
	\$	\$
Revenue	-	29,949
Cost of sales	-	22,356
Other expenses	-	5,235
Operating earnings from discontinued operations before income tax	-	2,358
Income tax expense	-	1,150
Operating earnings from discontinued operations	-	1,208
Gain on disposal	-	7,430
	-	8,638

There are no cumulative income or expenses included in OCI relating to the disposal groups.

26. COMMITMENTS

The Corporation has committed to payments under operating leases for premises and equipment and has also sublet certain premises that are under operating lease. The future aggregate minimum lease payments under non-cancellable operating leases are as follows:

	2015	2014
	\$	\$
Less than one year	3,138	2,936
Between one and five years	3,827	6,172
Later than five years	455	694
	7,420	9,802

The above includes commitments with related parties as disclosed in note 22. The Corporation has guaranteed certain payments under a lease agreement associated with the sale of its Coatings and Hydraulics division in 2014. The future aggregate minimum lease payments under this guarantees in the following year are \$299. The lease agreement expires in July of 2016 with the purchaser having the option to extend the lease for five years.

The Corporation has sublet certain premises that are under operating lease. Future minimum lease payments to be received in the following year and thereafter under non-cancellable leases are \$733 and \$977 (2014 - \$688 and \$1,542).

As at December 31, 2015, the Corporation has commitments to purchase inventory and operating supplies of \$795 (2014 - \$3,135). Payments for these commitments are expected to be made in 2016.

27. SUBSEQUENT EVENTS

Effective February 5, 2016, the Corporation reduced the maximum principal outstanding under the revolving credit facility from \$50.0 million to \$25.0 million.
