Shareholder and Voting Information

This Management Information Circular is furnished in connection with the solicitation of proxies by the management of McCoy Global Inc. (the "Corporation" or "McCoy Global") for use at the Annual General Meeting of the holders of common shares (the "Common Shares") of the Corporation to be held at the McCoy Global Inc. - Corporate Office, #201, 9910 39 Avenue NW, in the City of Edmonton, Alberta on Tuesday, the 23rd day of June, 2022 at 8:00 a.m. MDT, or at any adjournment thereof (the "Meeting"), for the purposes set forth in the enclosed Notice of Meeting. The information contained herein is given as of the 20th day of May 2022 (the "Effective Date"), except where otherwise indicated. There is enclosed herewith a form of proxy for use at the Meeting. The Corporation's annual consolidated financial statements to be presented at the Meeting are available on SEDAR at www.sedar.com. Each shareholder who is entitled to attend at meetings of shareholders is encouraged to participate in the Meeting and shareholders are urged to vote in person or by proxy on matters to be considered.

Although it is expected that the solicitation of proxies will be primarily by mail, proxies may also be solicited personally or by telephone, facsimile or other proxy solicitation services. In addition to the use of mail, proxies may be solicited by personal interviews, personal delivery, telephone, or any form of electronic communication or by directors, officers and employees of the Corporation who will not be directly compensated, therefore. All costs of this solicitation will be borne by the Corporation.

In accordance with National Instrument 54-101 – *Communications with Beneficial Owners of Securities of a Reporting Issuer* ("NI 54-101"), arrangements have been made with brokerage houses and other intermediaries, clearing agencies, custodians, nominees and fiduciaries to forward solicitation materials to the beneficial owners of the Common Shares held of record by such persons and the Corporation may reimburse such persons for reasonable fees and disbursements incurred by them in doing so. The costs thereof will be borne by the Corporation.

1. Appointment and Revocation of Proxies

The persons named (the "Management Designees") in the enclosed instrument of proxy ("Instrument of Proxy") have been selected by the Board of Directors of the Corporation (the "Board") and have indicated their willingness to represent as proxy the shareholder who appoints them. A shareholder has the right to designate a person (whom need not be a shareholder) other than the Management Designees to represent him or her at the Meeting. Such right may be exercised by inserting in the space provided for that purpose on the Instrument of Proxy the name of the person to be designated and by deleting therefrom the names of the Management Designees, or by completing another proper form of proxy and delivering the same to the transfer agent of the Corporation. Such shareholder should notify the nominee of the appointment, obtain the nominee's consent to act as proxy and should provide instructions on how the shareholder's shares are to be voted. The nominee should bring personal identification with him or her to the Meeting. In any case, the form of proxy should be dated and executed by the shareholder or an attorney authorized in writing, with proof of such authorization attached, where an attorney executed the proxy form or, if the shareholder is a corporation, under its corporate seal by an officer or attorney thereof duly authorized. In addition, a proxy may be revoked by a shareholder personally attending the meeting and voting his or her shares.

A form of proxy will not be valid for the Meeting or any adjournment thereof unless it is completed and delivered to the Corporation's transfer agent, Computershare Trust Company of Canada, Proxy Department, 8th floor, 100 University Avenue, Toronto, Ontario M5J 2Y1 at least forty-eight (48) hours, excluding Saturdays, Sundays and holidays, before the Meeting or any adjournment thereof. Late proxies may be accepted or rejected by the Chair of the Meeting in the Chair's discretion, and the Chair is under no obligation to accept or reject any particular late proxy.

A shareholder who has given a proxy may revoke it as to any matter upon which a vote has not already been cast pursuant to the authority conferred by the proxy. In addition to revocation in any other manner permitted by law, a proxy may be revoked by depositing an instrument in writing executed by the shareholder or the shareholder's authorized attorney in writing, or, if the shareholder is a corporation, under its corporate seal by an officer or attorney thereof duly authorized, with Computershare Trust Company of Canada, Proxy Department, 8th floor, 100 University Avenue, Toronto, Ontario M5J 2Y1, at any time up to and including the last business day preceding the date of the Meeting, or any adjournment thereof at which the proxy is to be

used, or by depositing the instrument in writing with the Chair of such Meeting on the day of the Meeting, or any adjournment thereof. In addition, a proxy may be revoked by the shareholder personally attending the Meeting and voting their shares.

2. Advice to Beneficial Shareholders

The information set forth in this section is of significant importance to many shareholders, as a substantial number of shareholders do not hold Common Shares in their own name. Shareholders who hold their Common Shares through their brokers, intermediaries, trustees or other persons, or who otherwise do not hold their Common Shares in their own name (referred to in this Management Information Circular as "Beneficial Shareholders") should note that only proxies deposited by shareholders who appear on the records maintained by the Corporation's registrar and transfer agent as registered holders of Common Shares will be recognized and acted upon at the Meeting. If Common Shares are listed in an account statement provided to a Beneficial Shareholder by a broker, those Common Shares will, in all likelihood, *not* be registered in the shareholder's name. Such Common Shares will more likely be registered under the name of the shareholder's broker or an agent of that broker. In Canada, the vast majority of such shares are registered under the name of CDS & Co. (the registration name for The Canadian Depository for Securities, which acts as nominee for many Canadian brokerage firms). Common Shares held by brokers (or their agents or nominees) on behalf of a broker's client can only be voted (for or against resolutions) at the direction of the Beneficial Shareholder. Without specific instructions, brokers and their agents and nominees are prohibited from voting shares for the broker's clients. Therefore, each Beneficial Shareholder should ensure that voting instructions are communicated to the appropriate person well in advance of the Meeting.

Existing regulatory policy requires brokers and other intermediaries to seek voting instructions from Beneficial Shareholders in advance of shareholders' meetings. The various brokers and other intermediaries have their own mailing procedures and provide their own return instructions to clients, which should be carefully followed by Beneficial Shareholders in order to ensure that their Common Shares are voted at the Meeting. The form of proxy supplied to a Beneficial Shareholder by its broker (or the agent of the broker) is substantially similar to the Instrument of Proxy provided directly to registered shareholders by the Corporation. However, its purpose is limited to instructing the registered shareholder (i.e., the broker or agent of the broker) how to vote on behalf of the Beneficial Shareholder. The vast majority of brokers now delegate responsibility for obtaining instructions from clients to Broadridge Financial Solutions, Inc. ("Broadridge") in Canada. Broadridge typically prepares a machine-readable voting instruction form, mails those forms to Beneficial Shareholders, and asks Beneficial Shareholders to return the forms to Broadridge, or otherwise communicate voting instructions to Broadridge (by way of the Internet or telephone, for example). Broadridge then tabulates the results of all instructions received and provides appropriate instructions respecting the voting of shares to be represented at the Meeting. A Beneficial Shareholder who receives a Broadridge voting instruction form cannot use that form to vote Common Shares directly at the Meeting. The voting instruction forms must be returned to Broadridge (or instructions respecting the voting of Common Shares must otherwise be communicated to Broadridge) well in advance of the Meeting in order to have the Common Shares voted. Additionally, there are two kinds of Beneficial shareholders: (i) those who object to their name being made known to the issuers of securities which they own, known as objecting beneficial owners or "OBO"s; and (ii) those who do not object to their name being known to the issuers of securities which they own, known as non-objecting beneficial owners or "NOBOs".

Although a Beneficial Shareholder may not be recognized directly at the Meeting for the purposes of voting Common Shares registered in the name of the Beneficial Shareholder's broker, a Beneficial Shareholder may attend the Meeting as proxyholder for the registered shareholder and vote the Common Shares in that capacity. Beneficial Shareholders who wish to attend the Meeting and indirectly vote their Common Shares as proxyholder for the registered shareholder, should enter their own names in the blank space on the form of proxy provided to them and return the same to their broker (or the broker's agent) in accordance with the instructions provided by such broker.

All references to shareholders in this Management Information Circular and the accompanying Instrument of Proxy and Notice of Meeting are to registered shareholders unless specifically stated otherwise.

This Management Information Circular and the accompanying Instrument of Proxy and Notice of Meeting may have been sent directly by the Corporation, rather than through an intermediary, to non-objecting beneficial owners under National Instrument 54-101. These securityholder materials are being sent to both registered and non-registered owners of the securities. If you are a non-registered owner, and the Corporation or its agent has sent these materials directly to you, your name and address and information about your holdings of securities, have been obtained in accordance with applicable securities regulatory

requirements from the intermediary holding on your behalf. By choosing to send these materials to you directly, the Corporation (and not the intermediary holding on your behalf) has assumed responsibility for (i) delivering these materials to you, and (ii) executing your proper voting instructions. Please return your voting instructions as specified in the request for voting instructions.

3. Voting of Proxies

Each shareholder may instruct the shareholder's proxy how to vote the shareholder's Common Shares by completing the blanks on the Instrument of Proxy. All Common Shares represented at the Meeting by properly executed proxies will be voted for or against or withheld from voting (including the voting on any ballot) in respect of each proposed resolution, as the case may be, and where a choice with respect to any matter to be acted upon has been specified in the Instrument of Proxy, the Common Shares represented by the proxy will be voted in accordance with such specification. **In the absence of any such specification as to voting on the Instrument of Proxy, the Management Designees, if named as proxy, will vote in favour of the matters set out therein. In the absence of any specification as to voting on any other form of proxy, the Common Shares represented by such form of proxy will be voted in favour of the matters set out therein.**

If you decide to appoint the directors and/or officers of the Corporation named in the enclosed Form of Proxy as your proxyholders, and do not indicate how you want to vote, they will vote as follows:

- FOR** fixing the number of directors of the Corporation to be elected at the Meeting at six (6) members
- FOR** electing each of the six director nominees recommended by management
- FOR** appointing PricewaterhouseCoopers LP as auditors at a remuneration to be fixed by the Directors

The enclosed Instrument of Proxy confers discretionary authority upon the Management Designees, or other persons named as proxy, with respect to amendments to or variations of matters identified in the Notice of Meeting and any other matters which may properly come before the Meeting. As of the Effective Date, the Corporation is not aware of any amendments to, variations of or other matters which may come before the Meeting. In the event that other matters come before the Meeting, then the Management Designees intend to vote in accordance with the judgment of management of the Corporation.

4. Quorum

A quorum of shareholders is present at a meeting of shareholders if a holder or holders of not less than 10% of the Common Shares entitled to vote at a meeting of shareholders are present in person or represented by proxy at the Meeting.

5. Voting Securities and Principal Holders of Voting Securities

As at the Effective Date, the Corporation is authorized to issue an unlimited number of Common Shares, of which **28,317,499** Common Shares are issued and outstanding. The Corporation is also authorized to issue an unlimited number of preferred shares, none of which are issued or outstanding as at the Effective Date. The Common Shares are the only shares entitled to be voted at the meeting and holders of common shares are entitled to one vote for each Common Share held.

Holders of Common Shares of record at the close of business on May 20, 2022 (the "Record Date") are entitled to vote such Common Shares at the Meeting on the basis of one vote for each Common Share held except to the extent that, (i) the holder transfers the holder's shares after the close of business on the Record Date, and (ii) such transferee produces properly endorsed share certificates to the Secretary or Transfer Agent of the Corporation, or otherwise establishes the holder's ownership of the shares, at least ten (10) days prior to the Meeting, in which case the transferee may vote those shares.

Set out below are the names of all persons or companies who, to the knowledge of the directors and executive officers of the Corporation, beneficially own, directly or indirectly, or exercise control or direction over, voting securities carrying more than 10% of the voting rights attached to all issued and outstanding Common Shares.

You can appoint someone else to represent you at the Meeting; however, you must appoint that person by proxy by inserting his or her name in the appropriate space on the proxy form, or completing another acceptable paper proxy. The person you appoint does not need to be a shareholder but must attend the Meeting in person in order for your vote to be cast.

As of the Effective Date, neither the directors nor senior officers of the Corporation are aware of any variation, amendment, or other matter to be presented for a vote at the Meeting.

Business to be Transacted

To the knowledge of the Board of Directors of the Corporation, the only matters to be brought before the Meeting are those matters set forth in the accompanying Notice of Meeting.

1. Number of Directors

Shareholders of the Corporation will be asked to consider, and if thought appropriate, approve an ordinary resolution fixing the number of directors to be elected at the Meeting at six (6).

In order to be effective an ordinary resolution requires approval by a majority of the votes cast by shareholders who vote in respect of the resolution. At the Meeting, it will be proposed that six directors be elected to hold office until the next annual general meeting or until their successors are elected or appointed. **Unless otherwise directed it is the intention of the Management Designees, if named as proxy, to vote the proxies in favour of the resolution fixing the number of directors to be elected at the Meeting at six (6).**

Management recommends that Shareholders vote **FOR** fixing the number of directors of the Corporation to be elected at the Meeting at six (6) members

2. Election of Directors

The affairs of the Corporation are managed by its Board of Directors. The directors are elected by the shareholders annually at each annual general meeting of the shareholders and hold office until the next annual general meeting, or until their successors are duly elected or appointed or until a director vacates the director's office or his office is earlier vacated in accordance with the by-laws of the Corporation, or the provisions of the *Business Corporations Act* (Alberta) to which the Corporation is subject.

The Corporate Governance Guidelines includes a majority voting policy ("Policy") relating to the election of directors in non-contested elections. Under the Policy, each proxy for the election of directors will permit the shareholders to vote "For" or "Withhold" each individual director, and any director nominee who receives from the votes cast a greater number of "Withhold" votes than "For" votes shall promptly, following the certification of the shareholder vote, submit his or her resignation from the Board, which shall either accept or reject the resignation in accordance with the Policy. For the forthcoming year, it is proposed that the Board of Directors shall consist of six (6) members. The persons named below have been nominated for election and have consented to such nomination.

Unless otherwise directed, it is the intention of the Management Designees, if named as proxy, to vote for the election of the persons named in the following table to the Board of Directors. Management does not contemplate that any of such nominees will be unable to serve as directors; however, if for any reason any of the proposed nominees do not stand for election or are unable to serve as such, **proxies held by Management Designees will be voted for another nominee in their discretion unless the shareholder has specified in his form of proxy that his Common Shares are to be withheld from voting in the election of directors.**

Management recommends that Shareholders vote FOR each of the following six (6) nominees

Compensation Discussion & Analysis

1. Human Resources, Compensation & Governance Committee

In 2018, the Corporation's Human Resources and Compensation Committee and Governance Committee were amalgamated as the Human Resources, Compensation & Governance Committee ("the HRC&G Committee").

One of the mandates of the HRC&G Committee is to assist the Board of Directors in fulfilling its oversight responsibilities including the following:

- Appointment, performance, and compensation of the CEO;
- Compensation structure and succession planning for key executive positions; and
- Provision guidance on the Corporation's People and Culture strategy and alignment with the overall strategic plan of the Corporation.

In addition, the Board of Directors, with oversight by the HRC&G Committee, assesses risk associated with executive compensation by actively reviewing compensation design and compensation decision making processes. The Board, through the HRC&G Committee's workplan and charter, assess and determine risk and risk level related to compensation programs embedded in the business model as well as any short-term compensation gain for executives that may create excessive risk to the Corporation.

The HRC&G Committee is satisfied that:

- The Corporation's policy and plans on compensation do not encourage any Named Executive Officer (NEO) or employee who is in a senior management or leadership position to take inappropriate or excessive risks; and
- There were not any identified risks arising from the Corporation's compensation plans or policies that would have had any negative or material impact on the Corporation.

The Corporation's compensation practices and plans are aligned with the overall business strategy and are designed in accordance with progressive people and culture practices that are focused on engagement, retention, and performance.

Further information on the HRC&G Committee and its membership is available under the Statement of Corporate Governance Practices in this Management Information Circular.

2. Compensation of Directors

As at the Effective Date, the Corporation has six directors, of which four are considered to be independent directors. National Instrument 58-101 provides that a director is independent if he or she would be independent within the meaning of Section 1.4 of National Instrument 52-110.

The Corporation's director compensation program is designed to address the following:

- Complexity The complexity of the Corporation
- Competitiveness Attracting and retaining knowledgeable and skilled directors is a challenge in today's economic climate
- Accountability Increasing public and shareholder demands creates more accountability, governance, and responsibility
- Contribution The contribution made by the director in time and expertise
- Growth The organization has a strategy emphasizing growth

Director Compensation Highlights

As a direct response to the economic impact of the COVID-19 pandemic, including the significant decrease in oil and gas consumption globally and accompanying decline in oil and gas prices, the Board of Directors voluntarily reduced both their annual retainers and meeting participation fees by 25%, effective May 1, 2020 to May 1, 2021. Effective May 1, 2021 to present the Board of Directors voluntarily reduced both their annual retainers and meeting participation fees by 20%.

Executive officers of the Corporation who also act as directors of the Corporation did not receive any compensation for services rendered solely in their capacity as directors, other than as paid to them in their capacity as executive officers. Directors who are US residents are compensated in US dollars. Total cash remuneration earned by non-management directors of the Corporation in their capacity as directors from January 1, 2021 until December 31, 2021 was \$339,982. The Corporation also reimburses directors for related travel and out-of-pocket expenses incurred in the course of carrying out their duties as directors.

Directors' Deferred Share Unit Plan

The Corporation has adopted a deferred share unit ("DSU") plan for its independent directors. The DSU plan has two components: an "appointment grant" and a "continuous grant". The appointment grant is provided to each newly appointed director. The number of DSUs issued for the appointment grant is equivalent to \$50,000, at the time of the grant. The appointment grant fully vests on the third anniversary of the grant date. The continuous grant provides for an annual issue of DSUs to eligible directors. The number of DSUs issued for the continuous grant is equivalent to \$7,500, at the time of the grant. One-third of the continuous grant vests annually on the anniversary of the grant date. On the date the participant ceases to be a director of the Corporation, the participant is paid a cash amount equal to the product obtained by multiplying the number of vested DSUs by the volume weighted average closing price of the Common Shares on the Toronto Stock Exchange for the 20 trading days prior to such date. The DSU plan is a cash plan.

3. Compensation of Executive Officers

Compensation Philosophy and Objectives

The Board of Directors' philosophy on total rewards is to ensure that the Corporation's executives are rewarded for achievement of the Corporation's strategic plan and financial results. In addition, executive compensation at the Corporation is established based on individual contribution and performance, relevant external labour markets and the following principles:

- Aligning executive goals to the interests of the organization and shareholders;
- Motivating and rewarding executives to exceed business objectives, performance, and growth; and
- Providing for the attraction and retention of superior executive talent.
- Supports the health and well-being of the executive team members

Executive Compensation Highlights

- As a direct response to the economic impact of the COVID-19 pandemic, including the significant decrease in oil and gas consumption globally and accompanying decline in oil and gas prices, the Executive voluntarily reduced their base compensation. Effective May 1, 2020 to May 1, 2021 the President & CEO's base compensation was reduced by 25%, while the base compensation of other Executives was reduced by 20%. Effective May 1, 2021 to present the President & CEO's base compensation was reduced by 20%, while the base compensation of other Executives was reduced by 15%.
- In response to the prolonged down-cycle and continued suppression of oil and natural gas prices and drilling activity, the Executive Officers elected to:

- Suspend any annual bonus or short-term incentive plan (“STIP”) awards accruing for the years ended December 31, 2016 to present in response to the prolonged down-cycle and continued suppression of oil and natural gas prices and drilling activity; and
- Suspend the Corporation’s retirement savings plan matching contributions effective January 1, 2016 to present.
- The Corporation does not:
 - Provide “single-trigger” change-of control cash payments;
 - Allow repricing of underwater options;
 - Provide excessive perquisites
- The Corporation has adopted a clawback policy as follows:

“The board of directors (“Board”) of McCoy Global Inc. (“McCoy” or the “Company”) has set forth this clawback policy (the “Policy”) which specifies the consequences with respect to incentive awards in the event of negligence, fraud or willful misconduct resulting in a restatement of the Company’s financial statements. This Policy provides that where there is a restatement of the financial results of the Company for any reason other than a restatement caused by a change in applicable accounting rules or interpretations, and, in connection with such restatement an executive officer engaged in negligence, fraud or willful misconduct, the Board or the Human Resources, Compensation & Governance Committee (“HRCGC”) may: (a) require that the executive officer return or repay to the Company, or reimburse the Company for, all or part of the after-tax portion of any excess compensation; and/or (b) cause all or part of any awarded and unpaid or unexercised performance-based compensation (whether vested or unvested) that constitutes excess compensation for such executive officer to be cancelled.

For purposes of this Policy, “excess compensation” means the difference between the amount or value of any performance-based compensation actually paid or awarded to an executive officer and the amount or value that would have been paid or awarded as calculated or determined based on the financial statements of the Company as restated. “Performance-based compensation” includes all bonuses and other incentive compensation that is paid or awarded to any executive officer based in whole or in part on the application of performance criteria or financial metrics measured during the applicable period preceding the applicable restatement as determined by the Board or the HRCGC, and includes incentive compensation awarded or paid in any form, including cash or equity-based, whether vested or unvested.”

Compensation Elements and Positioning

Executive total compensation is defined as base pay, annual bonus program or STIP, and equity incentive or long-term incentive plan (“LTIP”). The combination of these elements, specifically the STIP and LTIP, provide the executive with reward for the successful execution of the Corporation’s strategic plan.

Benchmarking Practices

The Corporation uses publicly available salary information to form the base comparison and review of executive compensation.

Base Salary

Base salaries for identified executive positions are targeted at the median or average base of the established comparator group. The Corporation conducts periodic reviews of organizations, of the target market, to identify the appropriate base salary for identified positions. Actual base salary for the executives is tied to the position’s scope in the organization, overall competency, position complexity, performance, and retention risk.

Non-Equity Incentives

While the Board wants to ensure the Corporation's executives receive fair base pay compensation, greater emphasis is placed on variable rewards, both STIP and LTIP, to motivate short and long-term results.

Annual bonus payouts have assigned maximums based on a percentage of salary specific to the executive's position with the Corporation. The Corporation's Board of Directors and executive management elected to suspend any STIP payments for the years ended December 31, 2019, 2020 and 2021 in response to the prolonged down-cycle and continued suppression of oil and natural gas prices and drilling activity.

Position	Maximum Bonus as a Percentage of Salary	Voluntarily Elected Bonus as a Percentage of Salary
President & Chief Executive Officer	125%	0%
Vice President, Marketing & Technology	100%	0%
Vice President & Chief Financial Officer	100%	0%

Historically, annual bonus was measured by a combination of financial measures and individual objectives.

The financial measure component of STIP included:

- Net earnings as a percentage of revenue;
- Adjusted EBITDA (net earnings (loss), before depreciation of property, plant and equipment; amortization of intangible assets; income tax expense (recovery); finance charges, net; provisions for excess and obsolete inventory; other losses (gains), net; restructuring charges; share-based compensation; and impairment losses) as a percentage of revenue; and
- Return on invested capital.

The amount of the STIP award for each financial measure was then determined based on actual financial performance by the Corporation, up to a maximum award for any individual financial measure.

Equity Incentives

Equity incentives, namely the LTIP, are established as a component of total compensation and are designed to align the executives with the longer-term interests of the Corporation and the shareholders. The LTIP provides the executive with the opportunity for additional compensation based on achieving the long-term strategy and growth of the Corporation. The LTIP consists of the corporation stock option and restricted share plan.

The Corporation emphasizes stock options and restricted shares in executive compensation as they allow executive officers to share in positive corporate results. The President & Chief Executive Officer recommends to the Board stock options and restricted shares proposed to be granted to other employees. As part of its review of executive compensation the HRC&G Committee recommends to the Board stock options and restricted shares proposed to be granted to executives. In this review, previous grants of stock options and restricted shares are considered when recommending new grants.

The HRC&G Committee, with approval of the Board, established a stock option plan in 2011. The Board has the authority to amend or discontinue the stock option plan. On March 11, 2015, the Board adopted a policy such that, beginning in fiscal 2015, there will no longer be automatic annual grants of stock options to executives. Rather, stock options will be granted to the executives of the Corporation at the discretion of the Board. No stock options were granted to the Executive in 2021.

The HRC&G Committee, with approval of the Board, established a restricted share plan in 2018. The Board has the authority to amend or discontinue the restricted share plan.

Summary of Executive Compensation

The following table summarizes the total compensation paid to individuals who were acting as, or were acting in a capacity similar to, a Chief Executive Officer or Chief Financial Officer and the three most highly compensated executive officers whose total compensation exceeded \$100,000 per annum (the "Named Executive Officers") during the financial year ended December 31, 2021, including their respective total compensation acting as an executive officer during the financial years ended December 31, 2020 and December 31, 2019.

(1) "Option-Based Award" means an award under an equity incentive plan of options, including, for greater certainty, stock options, share appreciation rights and similar instruments that have option-like features. The "grant date fair value" has been determined by using the Black-Scholes option pricing model. Calculating the value of stock options using the Black-Scholes option pricing model is very different from a simple "in-the-money" value calculation. In fact, stock options that are well out-of-the-money can still have a significant "grant date fair value" based on a Black-Scholes option pricing model, especially where, as in the case of the Corporation, the price of the Common Share underlying the option is highly volatile. Accordingly, caution must be exercised in comparing grant date fair value amounts with cash compensation or an in-the-money option value calculation.

(2) "All Other Compensation" is defined as allowances and the employer contributions of the Corporation's Retirement Savings Plan, ESPP and benefits. For more details please see "Other Forms of Compensation" in this Management Information Circular.

(3) Restricted Share Plan award is calculated using restricted share units granted multiplied by the share price on the issuance date.

Other Forms of Compensation

Benefits and Allowances

The Corporation's executive officers may choose to participate in the Corporation's employee benefit program which includes extended health care, dental, life and disability insurance. A portion of the costs of the premiums are paid by the employee and a portion of the premium costs are paid by the Corporation. In addition, the executive officers receive a spending account, to a maximum of \$5,000 in accordance with applicable laws and regulations.

The Corporation provides the executive officers a vehicle allowance to assist with travel expenses incurred during the normal course of business operations. These benefits and allowances are designed to be competitive with equivalent positions comparable in the targeted industry.

Retirement Benefits

The Corporation's executive officers are eligible to participate in the Corporation's retirement savings plan. Under the plan the Corporation matches 100% of the participant's contributions to a maximum of 3.0% of base salary. These programs are available to all regular full-time employees at the same contribution levels. The other executive officers may contribute up to an additional 2% of base salary, above the Corporation's employee plans, to a maximum of 5.0% of base salary and the Corporation matches this amount to a company maximum of 5.0%, or the annual maximum in accordance with applicable laws and regulations.

A retirement savings program has been designed for Jim Rakievich providing for a company contribution of 10% of base salary with Mr. Rakievich contributing 2.5%. For contributions in excess of the maximum retirement savings plan amounts, as defined by the applicable laws and regulations, the Corporation funds a retirement compensation arrangement (RCA).

For 2016 through 2021, the Corporation suspended its matching contribution, with the exception of Mr. Rakievich's RCA.

The Corporation does not have a registered pension plan, or a deferred compensation plan for its executive officers.

Employee Share Purchase Plan

Under the Corporation's Employee Share Purchase Plan ("ESPP"), the Corporation matches a portion of the participant's contributions to a maximum of 2.0% of base salary. The Corporation's matching obligation is dependent on the employee's contribution years in the plan: less than one year a 33% match; between one and three years a 67% match; between four and seven years a 100% match; and greater than eight years a 133% match. This program is available to all regular full-time employees and may, if available, be directed to: a non-registered account; a registered retirement savings plan account; or a registered tax-free savings account. The amounts are considered vested immediately, however the employee is restricted from accessing the Corporation's matching amount for 12 months following the purchase. In addition, the plan 'penalizes' transfers or withdrawals prior to 5 years' service in the plan and every five years thereafter. Any transfer or withdraw of Common Shares from the plan will result in the matching level being reset to the 33%.

Notwithstanding the above, the Board requires the Corporation's executive officers to contribute 5.0% to the ESPP. The Corporation matches this amount according to the contribution years in the plan. Matching contributions are not made by issuing shares from treasury.

Termination and Change of Control Agreements

The employment agreement for all NEOs provides for severance in the event of termination without cause or permanent disability. The severance amount is the greater of a one-time lump sum amount equal to twelve (12) months' notice plus one additional month of notice for each complete year of service after 12 complete years of service, to a maximum of eighteen (18) months' notice, or pay in lieu of that notice, calculated as follows: (i) the applicable number of month's annual base salary; (ii) an amount equal to twenty (20%) percent of the base salary to compensate for loss of benefits and perquisites; (iii) an amount equal to the average of the three (3) years' STIP payments or an amount equal to 50% of the annual base salary, whichever is greater; and (iv) an amount equal to the STIP payment earned (if any) for the fiscal year in which the termination date occurs, pro-rated as of the termination date and paid after the end of the relevant fiscal year per policy. The employment agreement also contains a change in control clause, defined as one of the following events occurring: (i) a transaction or series of transactions resulting in the sale, transfer, conveyance, lease or exchange by the Corporation of all or substantially of its assets; (ii) the acceptance by the Corporation's shareholders of any offer, whether by way of a takeover bid or otherwise, representing in the aggregate fifty percent (50%) or more of all of the issued and outstanding Shares; (iii) a transaction or series of transactions resulting in the acquisition, by whatever means, by a person (or two or more persons who, in such acquisition, have acted jointly or in concert or intend to exercise jointly or in concert any voting rights attaching to the Shares acquired), directly or indirectly, of beneficial ownership of such number of Shares or rights to Shares, which together with such person's then-owned Shares and rights to Shares, if any, represent (assuming the full exercise of such rights) fifty percent (50%) or more of the combined voting rights attached to the then-outstanding Shares; (iv) the entering into of any agreement by the Corporation to merge, consolidate, restructure, amalgamate, initiate an arrangement or be absorbed by, into or with another corporation which is not an affiliate (as defined under applicable securities laws) of the Corporation; (v) the circumstances in which individuals who were members of the Board of Directors immediately prior to a meeting of the shareholders involving a contest for the election of directors no longer constitute a majority of the Board at any time within the subsequent twelve (12) months following such meeting; or (vi) such other transaction or series of transactions which the Board of Directors, acting reasonably, by resolution deems to be a Change of Control Event. For a period of twelve months following a change of control event, if the Corporation terminates any NEO employment without cause or a NEO terminates their employment for "Good Reason", the NEO is entitled to the severance pay as above.

The following table summarizes the benefits for all NEOs:

Statement of Corporate Governance Practices

Corporate Governance Practices relates to the activities of the Board, the members of which are elected and are accountable to the Corporation's shareholders, and take into account the role of the individual members of management who are appointed by the Board and who are charged with the day to day management of the Corporation. The Board and senior management considers good corporate governance to be central in the effective and efficient operation of the Corporation.

Pursuant to the provisions of National Instrument 58-101 *Disclosure of Corporate Governance Practices* ("NI 58-101") issuers are required to disclose their corporate governance practices annually and provide guidance on corporate governance practices respectively. The Board has reviewed its practices relative to the new guidelines and offers the following summary.

1. Board of Directors

Pursuant to NI 58-101, a director is independent if the director would be considered independent within the meaning contained in section 1.4 of National Instrument 52-110 ("NI 52-110") which states that a director is independent if he or she has no direct or indirect relationship with the Corporation which could, in the view of the Corporation's Board, be reasonably expected to interfere with the exercise of a director's independent judgment.

As at the Effective Date, the Board is comprised of seven (7) directors, six (6) of whom the Board has determined are independent. In assessing whether a director is independent for these purposes, the circumstances of each director have been examined in relation to the factors described in NI 52-110. Eighty-six percent (86%) of the directors are independent.

Director	Independence Status	Basis for Determination of Independence
Michael Buker	Independent	Not applicable – no material relationship
Terry D. Freeman, Chair	Independent	Not applicable – no material relationship

- (1) In accordance with the agreement between Burgunday Asset Management Ltd and the Corporation, dated April 22, 2021, Mr. Christopher T. Seaver is not running for re-election to the Board of Directors at the Corporation's 2022 AGM.

The Corporation has taken steps to ensure that adequate structures and processes are in place to permit the Board to function independently of management. Each Board meeting concludes with an *in-camera* session which excludes management and management directors. These sessions are of no fixed duration and participating directors are encouraged to raise and discuss any issues of concern. The independent directors may choose to meet privately at any time, either following an in-camera session or at another time of their choosing.

Currently, the Board is satisfied that it exercises its responsibilities for independent oversight of management. The ability to establish ad hoc committees comprised solely of independent directors provides the Board with the ability to meet independently of management whenever deemed necessary or appropriate and the chair of each such ad hoc committee provides leadership for such committee.

Directors and officers of the Corporation are required to declare any material conflict or potential conflict of interest, either in writing to the Corporation or to the Board or by request to have the nature and extent of his or her interest entered in the minutes of the Board meeting. A director having declared such an interest shall abstain from voting on any resolution approving the arrangement. The disclosure requirements for directors and officers are in accordance with the *Business Corporations Act* (Alberta). Similarly, any related-party transactions must be approved by the non-related directors and appropriately disclosed to the public.

The following table sets out details of directorships currently held by each director of the Corporation in reporting issuers other than the Corporation:

2. Board Mandate

The primary responsibility of the Board is to foster the long-term success of the Corporation.

While the Board is responsible for the “management of the business and affairs of the Corporation”, this is done by proxy through the President and Chief Executive Officer, who is charged with the day to day management of the Corporation.

In performing its function, the Board also considers the legitimate interest which shareholders and other stakeholders have in the Corporation by supervising the conduct of its business. The Board, through the President and Chief Executive Officer, will set standards of conduct for the Corporation and ensure the safety of its operations.

The Board has delineated the roles and responsibilities of the Board and the President and Chief Executive Officer. The President and Chief Executive Officer’s employment agreement further defines his specific role and responsibilities. While the Board is responsible for the management of the business and affairs of the Corporation, this is accomplished in part by delegation to the President and Chief Executive Officer who is charged with the day-to-day management of the Corporation. The President and Chief Executive Officer reports directly to the Board and has responsibility for the leadership and management of the Corporation within the parameters adopted by the Board.

The following table provides a description of how the Board has delineated various roles and responsibilities between it and the Corporation’s President and Chief Executive Officer. 7. Human Resources, Compensation & Governance Committee

The Board has an HRC&G Committee composed of a minimum of three directors, a majority of whom are not officers or employees of the Corporation and are unrelated, independent directors of the Corporation. The Board's policy regarding director independence is to adopt the practice which best serves the Corporation's needs at any particular time. In the Board's view, the current HRC&G Committee structure is appropriate considering the size of the Corporation and the Board, and that the Corporation has four significant shareholders. The HRC&G Committee members are well-versed in compensation and governance practices for the regions and industry in which the Corporation operates. The HRC&G Committee also encourages every member of the Board to actively participate in discussions relating to executive compensation, and full Board approval is required for the President and Chief Executive Officer's compensation. The HRC&G Committee makes recommendations to the full Board for review and approval. As of the Effective Date, the HRC&G Committee members are Cory Janssen (Chair), Michael Buker and William John Walker. All members are considered to be independent as at December 31, 2021.

The HRC&G Committee charter was approved in 2018. In respect of compensation matters, the Committee reviews and provides recommendations to the Board on the following matters:

- (i) Compensation policies and guidelines for supervisory and management personnel of the Corporation and its related entities;
- (ii) Corporate benefits, bonuses and other incentives, including equity-based compensation;
- (iii) Reviewing and approving corporate goals and objectives relevant to CEO compensation, evaluating the CEO's performance in light of those corporate goals and objectives and determining the CEO's compensation, evaluating the CEO's performance in light of those corporate goals and objectives and determining the CEO's compensation level based on this evaluation;
- (iv) Non-CEO officer and director compensation, incentive compensation plans and equity-based plans;
- (v) The review of executive compensation disclosure before the Corporation publicly discloses such information;
- (vi) Succession plans for the officers and for key employees of the Corporation; and
- (vii) Any material changes or trends in human resources policy, procedure, compensation and benefits.

In respect of corporate governance matters, the Committee reviews and provides recommendations to the Board on the following matters:

8. Assessments

The HRC&G Committee is responsible for, and has established processes for assessing the effectiveness of the Board as a whole, the committees of the Board and the contribution of each individual director. A Board Self-Evaluation Survey has been developed for periodic use at the discretion of the HRC&G Committee. The HRC&G Committee periodically considers the effectiveness of the full board and contributions of individual directors as well as reviews the structure and terms of reference for each of the Board committees. Additionally, the contributions of individual directors may be discussed in camera at any HRC&G Committee or Board meeting. The HRC&G Committee conducts, on behalf of the board, a board evaluation and an individual board member evaluation annually. Results were summarized by the Committee and discussed with the board.

9. Diversity

Policies Regarding the Representation of Diversity on the Board

The Corporation has adopted the following Diversity Policy:

Board Diversity Policy

The Human Resources, Compensation & Governance Committee ("HRCGC") of the board of directors ("Board") of McCoy Global Inc. ("McCoy" or the "Company") regularly reviews the skills and competencies of the Company's directors including to assess alignment with McCoy's current and longer term strategic vision and business strategy.

When recruiting to fill a vacant Board position or to add or enhance Board skills and competencies, the HRCGC considers candidates with the attributes, knowledge and experience that are aligned with, and will further and enhance the execution of, McCoy's strategic vision and business strategy.

The Board recruiting process administered by the HRCGC also considers diversity as an important element when identifying suitable candidates.

The Company seeks to maintain a Board in which at least one member of the Board is a woman by its annual meeting in 2023, and thereafter maintain a Board with at least one member of the Board being a woman.

At least annually, the Board or a committee of the Board will review this policy and assess its effectiveness in promoting a diverse Board and the progress of the Company in achieving objectives set out in this policy.

Management Diversity Policy

Diversity is essential to any management team and the Company recognizes the value of a broad range of skills and diversity of background, race and gender among the executive leadership team.

McCoy's executive and senior leadership group reflects these attributes and the Company will continue to assess candidates on these merits when recruiting or promoting from within to leadership positions.

Although no specific targets for female management roles have been adopted, the Company's track record has consistently reflected gender diversity as, and it will continue to be, one of the important considerations in appointing candidates to management roles.

As of the Effective Date, there are no women on the Board and one of the Corporation's three executive officers is a woman.

Director Term Limits and Other Mechanisms of Board Renewal

The Board has not adopted director term limits or other mechanisms of board renewal for the following reasons:

- the implementation of director term limits is problematic, as it is an unproven method of encouraging board effectiveness;
- the imposition of director term limits on a board implicitly discounts the value of experience and continuity amongst board members and runs the risk of excluding experienced and potentially valuable board members as a result of an arbitrary determination;
- the impositions of rigid, prescribed term limits on the tenure of directors implies that boards cannot properly govern themselves, by usurping core functions of the board and replacing them with fixed criteria that may not adequately represent the interests of shareholders;
- directors with the level of understanding of a company's business, history and culture acquired through long service on the board provide additional value;
- term limits run the risk of acting as a substitute for proper board self-assessment and renewal; and
- there is little empirical evidence that a director's ability to act independently of management declines after any specific period of service.

10. Other Board Committees

The Board has no standing committees other than the Audit Committee (as described in the Corporation's Annual Information Form dated March 4, 2022 for the year ended December 31, 2021 filed on SEDAR at www.sedar.com) and the HRC&G Committee (as described above).
