FORWARD-LOOKING STATEMENTS

This presentation contains forward-looking statements and forward-looking information within the meaning of applicable securities laws. The use of any of the words "expect", "anticipate", "continue", "estimate", "objective", "ongoing", "may", "will", "project", "should", "believe", "plans", "intends" and similar expressions are intended to identify forward-looking information or statements. More particularly and without limitation, this presentation contains forward-looking statements and information concerning McCoy's future financial performance. The forward-looking statements and information are based on certain key expectations and assumptions made by McCoy, including expectations and assumptions concerning fluctuations in the level of oil and gas industry capital expenditures, the success of new product development, McCoy's ability to integrate acquired businesses and complete strategic acquisitions of additional business and other factors that affect demand for McCoy's products. Although McCoy believes that the expectations and assumptions on which such forward-looking statements and information are based are reasonable, undue reliance should not be placed on the forward-looking statements and information because McCoy can give no assurance that they will prove to be correct.

By its nature, such forward-looking information is subject to various risks and uncertainties, which could cause McCoy's actual results and experience to differ materially from the anticipated results or expectations expressed. These risks and uncertainties, include, but are not limited to, fluctuations in oil and gas prices, fluctuations in the level of oil and gas industry capital expenditures and other factors that affect demand for McCoy's products, industry competition, the need to effectively integrate acquired businesses, uncertainties as to McCoy's ability to implement its business strategy effectively in Canada and the United States, labour, equipment and material costs, access to capital markets, interest and currency exchange rates, technological developments, political and economic conditions and McCoy's ability to attract and retain key personnel. Additional information on these and other factors is available in the continuous disclosure materials filed by McCoy with Canadian securities regulators. Readers are cautioned not to place undue reliance on this forward-looking information, which is given as of the date it is expressed in this presentation or otherwise, and not to use future-oriented information or financial outlooks for anything other than their intended purpose. McCoy undertakes no obligation to update publicly or revise any forward-looking information, whether as a result of new information, future events or otherwise, except as required by law.

We are an **innovator** enabling safe, **environmentally protected**, access to hydrocarbons through the wellbore on land, shelf and deep-water offshore. Our tools and technologies **automate** tubular running services (TRS) by **eliminating wellsite safety incidents**, improving efficiency and maximizing wellbore integrity, driven by **real-time data** and our deep application expertise

Tubular Running Services

Installing the essential fortification of the wellbore by connecting steel pipe sections (casing) to enable safe access to hydrocarbons

WELLSITE REALITIES / CASING A WELL IS EXPENSIVE
